WHY STUDY WITH US?

Learn with the best
Our award-winning lecturers have extensive academic and industry expertise and are dedicated to helping you succeed. In addition to class contact time, we offer academic advice, peer-assisted study sessions and employment services to ensure you reach your potential.

Choose business
Challenge yourself and develop the skills to thrive in constantly changing and highly competitive business environments. UQ Business School’s vast network of industry contacts means you can develop practical experience and professional connections through internships at some of the world’s biggest companies. Studying business opens up opportunities for a wide range of change-making careers in the public, private and not-for-profit sectors.

Choose commerce
Commerce graduates have extensive career options in accounting and consulting firms, in companies and banks, as stockbrokers, and more, both in Australia and around the world. Throughout your program, you will develop strong technical knowledge and skills in critical evaluation, problem-solving and practical application. Broaden your opportunities by taking part in internships, industry placements or international student exchange, while working your way towards an internationally recognised qualification that will allow you to adapt to, manage and influence the dynamic business world.

Choose economics
Economics graduates are among the highest paid and most sought after in Australia.* Economics develops your analytical, modelling and prediction skills, and instils an understanding of how society uses our scarce resources. These skills are in high demand by businesses, consultancies, governments and international agencies. Your economics program will equip you for a meaningful career helping to resolve some of the world’s greatest challenges, including business productivity and investment decisions, the allocation of humanitarian aid, complex environmental issues and the ageing population.

Choose law
The TC Beirne School of Law is proudly the oldest law school in Queensland and one of Australia’s leading research-intensive law schools. While our teaching methods have changed significantly over time, we have retained an emphasis on traditional educational goals and values. We foster a comprehensive and sophisticated understanding of the law that will see you develop practical legal skills, stimulate thoughtful debate – with a focus on ethical and social responsibility – and nurture enthusiasm for the study of law.

Choose tourism
Are you seeking a rewarding international career in tourism, hospitality or event management? Tourism blends core business skills and industry knowledge with valuable practical experience, ensuring you receive a well-rounded education. You will learn to provide solutions to industry-specific challenges such as sustainability, and create meaningful change in your chosen field. Our graduates pursue careers in event management, food and beverage management, hotel and resort management, consultancy, wholesale travel and tourism marketing.

Get involved
Our active student body and student associations help you get the most out of your program by providing study support, professional development and social networking opportunities.

ASLI ADA DEMIR
Bachelor of Commerce/Laws (Honours)

Studying at UQ has enabled me to undertake my business and law program in a modern and flexible environment where discussion and debate around real world problems is encouraged. My academic life is well balanced with my participation in a few of the many clubs and societies on campus. This has assisted me in making new friends and exploring my other hobbies and interests.

* Graduate Destination Survey, 2016
WORK ANYWHERE IN THE WORLD
Our qualifications are recognised internationally, allowing graduates to work anywhere in the world

WIDE INDUSTRY NETWORK
Undertake internships in the offices of some of the world's leading companies, through our vast industry networks

DEDICATED EMPLOYABILITY TEAM
Our award-winning Student Employability Team (SET) is dedicated to strengthening student employability and career outcomes

UQ BUSINESS SCHOOL

Study with one of the world’s best business schools.

Independently ranked as one of the TOP BUSINESS SCHOOLS in Australia.
Top ranked
UQ Business School has been independently ranked as one of the top business schools in Australia and among the leading institutions worldwide. What sets us apart is that we stand for the kind of business that matters: business that creates sustained and positive change in industry and the broader community. You will learn from the most innovative business educators in Australia who will challenge your thinking. You will take in the most up-to-date and relevant theory and have the chance to apply this knowledge to business settings through internships and industry projects.

Graduates in demand
The diversity of our programs means our graduates are in demand in a wide range of industries across the public, private and not-for-profit sectors. Many of our alumni work in leadership positions in accounting, banking and financial services, consultancy, advertising, event management, marketing, property valuation, state and federal government, sales and retail, tourism, and business information systems.

Our lecturers are academic and industry leaders
They are consultants and advisors to leading companies worldwide. The majority of our 150 academic staff hold PhDs and produce research papers that are consistently cited in the world’s top-tier journals. This ensures our teaching is always relevant and informed by the latest research findings. Our programs cover a broad range of business disciplines and our lecturers supervise a diverse range of research higher degree topics.

Learning that pushes your boundaries
We have a reputation for strong links with the business world. Our students access industry leaders for real-life projects, as mentors and for internships. Another unique opportunity is our Community Engagement Program. By participating, you can build your skills working on community sector projects that benefit not-for-profit and charity organisations. The program is an opportunity for you to enhance your leadership, business planning, strategy and networking skills while giving back to the community.

AMISHREE RAIVADERA
Bachelor of Business Management/Commerce

“Although most universities offered the Bachelor of Business Management program I wanted to study, I chose The University of Queensland Business School due to the incredible campus, outstanding teaching facilities and endless resources available for staff and students. The contact time teaching staff allocate to providing students with individual assistance and feedback has proven extremely beneficial in developing my understanding of course content and how it will assist me in my future employment. Aspects such as the 24/7 libraries, countless teaching spaces and relaxation zones provide students with excellent learning facilities as well as areas to relax and reduce the pressures of study.”
Bachelor of BUSINESS MANAGEMENT

Got big ambitions for your career in business? The Bachelor of Business Management (BBusMan) teaches all the fundamentals you will need for your future, while offering flexible majors to focus your career path.

Why Business Management at UQ?
As a Business Management student, you will develop the professional knowledge and skills to successfully navigate the ever-changing, competitive business world. Our academic staff are leaders in their fields, working to find solutions to some of the world’s most pressing issues. Their research and consulting activities ensure our teaching is at the forefront of contemporary business knowledge, while also meeting industry requirements.

We firmly believe in providing you with practical experiences to build on your knowledge, including applied projects, real-life case studies, guest lecturers from industry, and opportunities for placements and internships with leading businesses. By the time you graduate you will have the skills to confidently lead people and projects.

What you will study
How do group dynamics affect employee behaviour? How do you manage online advertising and content? How can businesses make a profit while helping communities? How can businesses incorporate sustainability into their planning? You will explore the answers to these questions and more during your studies. This program is regularly updated to cover topical and innovative new study areas such as sustainability, entrepreneurship and business information systems. The Bachelor of Business Management is future-oriented, allowing you to adapt to rapidly changing business environments.

Career opportunities
This program opens up a wide range of career opportunities in the public, private and not-for-profit sectors. Many of our alumni work in leadership positions across various industries, attesting to the success of the program.

Honours
Our honours program is an opportunity for high achievers to spend an extra year learning in-demand business and research skills. These skills are highly sought after by employers, giving you a competitive advantage.

Professional memberships
As a graduate you may be eligible for memberships with a diverse range of professional bodies:
Majors
The Bachelor of Business Management provides you with a comprehensive base for a successful career in business. Compulsory foundation courses in areas such as management, marketing and finance equip you with core business skills. You build on these by choosing one or two (of eight) specialist majors that align with your areas of interest. A major consists of six courses from one area of specialisation. As you work through your chosen majors, you will develop managerial and entrepreneurial capabilities.

Advertising
Advertising unleashes a world of opportunities for all budding creative professionals. You will be introduced to the foundations of advertising and the media, and develop the business, analytical and creative skills necessary to launch an advertising career. Consumer behaviour and media planning and buying are some of the areas in which you will gain skills to become an effective advertising manager. You will also develop a range of hands-on professional skills in the creative design and development of advertising campaigns.

Business Economics
This major equips you with the knowledge and skills to effectively apply economic analysis to business management. It also supports a career in corporate strategy, production management, financial planning, capital budgeting, economics or business analysis. Business economics is also highly sought after in marketing, purchasing, and human resource management-related careers. You will learn the economics of growth strategies and how to apply economic analysis to macroeconomic modelling, forecasting, scenario planning, demand analysis, pricing policies, competitive strategies, capital budgeting, investment and cost-benefit analysis.

Careers:
Graduates enjoy careers in the media, advertising agencies, as media buyers, and in the marketing departments of private and public companies and government.

Benefit from INDUSTRY PLACEMENTS and INTERNSHIPS with leading businesses

STEPHANIE LAKIS
Bachelor of Business Management/Arts

Undertaking my Business Management degree at UQ not only provides me with an education from a highly reputable and competitive university, but also encourages me to search for hidden opportunities and challenges to help me learn and grow. This motivation has driven me to successfully undertake an internship at an international mining company founded in Australia and operating worldwide. I am confident that the flexible classes, industry-leading lecturers and support offered to business students at UQ will provide me with the skills required to achieve my goal of becoming a global marketing manager for a large international firm.
Business Information Systems
Discover the relationship between business and technology, and learn about the crucial role information systems play in well-functioning organisations. You will develop skills in data analytics, analysis of organisational information requirements, business information security, process improvement and digital business. This foundation of knowledge will allow you to make recommendations about the use of technology and systems in organisations to achieve competitive advantage.

Careers: Graduates enjoy a wide range of careers in consulting, infrastructure, public utilities, online services/marketing, and public sector departments and technology agencies.

Human Resources
Studying Human Resources (HR) provides you with the skills and experience to create positive work environments and assist people to achieve their own career aspirations. You will gain knowledge and skills in areas such as managing people, Australian and international industrial relations, selection and recruitment, organisational change, interpersonal communication, conflict resolution, training and development, negotiating employment agreements, and leadership.

Careers: Graduates enjoy careers as professional HR managers in public or private sector roles, for example in professional practices, trade unions, employer associations, government departments, management consultancies, industrial relations, negotiation and advocacy, and occupational health and safety.

International Business
Businesses competing in international markets must build relationships with customers, adapt their products to international markets, and manage the diverse logistical and supply channels of various countries. You will learn how cultural, regulatory and operational conditions impact the strategies needed to succeed in global markets. You will also gain an understanding of the key issues in international trade and investment, international marketing, international human resource management, and operations in firms engaged in international business, finance and strategy.

Careers: Graduates enjoy careers in a wide range of private businesses looking to expand their operations and trading networks overseas, or in state and federal government organisations and trade associations.

Marketing
Marketing is about understanding and identifying customers’ needs, communicating brand values, and engaging customers to increase business sales. For this reason, marketing is a crucial component of the success of any business. By studying this major, you will develop an understanding of key concepts underlying marketing practices such as applied market research, qualitative and quantitative marketing, relationship building, product and service management, product innovation, and communication and marketing strategy.

Careers: Graduates enjoy careers in marketing consultancies, market research, sales and retail, the entertainment industry, tourism, government agencies, not-for-profit organisations, and the marketing departments of medium and large-sized businesses.

Real Estate and Development
This major examines the theoretical and practical knowledge required to operate as a property professional. You will develop your knowledge of business and land economic principles. During your studies you will learn about the principles of property law, finance and investment, asset management, town planning and property valuations. You will apply advanced software and computer programs to solve business problems related to land development and management.

Careers: Graduates enjoy careers in property investment, development, management and valuation.

Sustainability
Companies worldwide are investing in businesses that are socially responsible and environmentally sustainable, as well as profitable. You will learn to manage the financial, social and natural environment aspects of a firm’s activities to achieve sustainable outcomes. This major covers emissions trading, corporate social responsibility, communicating for sustainability, strategic management in response to climate change, entrepreneurship, and renewable energy technology development.

Careers: Graduates enjoy careers in corporate strategy, sustainable management, business development, corporate communications and international business.

* You must complete these specified courses within your major
** These courses only apply for the 12-course major
The Bachelor of Commerce (BCom) is the perfect specialised program, equipping you with the fundamental knowledge and business skills for a career in accounting, financial management, banking, business analysis, business information systems or management.

**Why Commerce at UQ?**

UQ Business School Commerce graduates are in high demand. We are well regarded for our commerce programs and currently rank 26th in the world for accounting and finance.* By choosing to study the Bachelor of Commerce, you will develop a combination of core skills, specialist knowledge, and critical evaluation and problem-solving abilities. Your expertise will ensure you are sought after by employers and adapt well to the rapidly changing business world.

*2016 QS World University Rankings by Subject

**What you will study**

How can business performance be measured and assessed? What aspects of performance can be improved and how? How can company, project and investment value be determined to make buy/sell decisions? How do foreign markets, derivatives and debt markets affect my client’s portfolio? What is an auditor’s responsibility? What issues arise from operating in a virtual corporate environment? You will investigate these topics and more in our Bachelor of Commerce program.

After examining the fundamental principles of commerce, you will learn how to apply and adapt these principles in response to specific challenges and the changing business environment. You will build more

**Professional memberships**

As a graduate you may be eligible for memberships with a diverse range of professional bodies:
specialised knowledge and skills in one or two majors as you progress through Years 2 and 3 of your program. If you are seeking an in-depth understanding of how accounting, business information systems and finance add value to business and the global economy, then this program is for you.

Career opportunities
This program will prepare you for a career in the public or private sectors in accounting, banking, financial management, business analysis, business information systems or general management.

HENRY WONG
Bachelor of Engineering/Commerce

"The exceptional teaching quality and wide variety of business-related extracurricular activities available to students has helped me build both theoretical and practical knowledge of commerce which will assist me in developing a successful long-term career."
Honours
Our honours program is a challenging and rewarding extra year of study. As an honours student, you will develop your business and finance knowledge and skills through research and advanced coursework. Honours is a small-intake program, admitting only the top students from the Bachelor of Commerce program.

Majors
Develop in-depth skills and experience by choosing one or two majors relevant to your desired career. A major consists of six courses from one area of specialisation.

Accounting
If you aspire to an accounting career, this major is essential. It is also extremely valuable if you want a career in the corporate, government or not-for-profit sectors, as it provides a solid foundation for sound financial decision-making. The courses offered will advance your financial acumen by developing your knowledge of contemporary financial and management accounting practice, taxation and corporate laws. You will build your skills in critical analysis, problem-solving and reporting. By following study plans that cover the necessary prerequisites, you can apply for associate membership of the key Australian accounting professional bodies, Certified Practising Accountants (CPA) Australia and Chartered Accountants in Australia and New Zealand (CAANZ).

Careers: Graduates enjoy careers as accountants in public and private corporations, management and consulting firms, small business, banks and other financial institutions, government and government-owned corporations, and not-for-profit organisations.

Business Information Systems
Discover the relationship between business and technology, and learn about the crucial role information systems play in well-functioning organisations. You will develop skills in data analytics, analysis of organisational information requirements, business information security, process improvement and digital business. This foundation of knowledge will allow you to make recommendations about the use of technology and systems in organisations to achieve competitive advantage.

Important
You need to ensure that the courses you select are appropriate for your program requirements and rules. Refer to the program plans at bel.uq.edu.au/program-plans. For a full list of courses and electives visit uq.edu.au/study. Note – courses are subject to change, and not all courses are offered every year. To be eligible to join professional bodies, you may be required to complete certain courses.

Finance
Finance is a dynamic field that will afford you a vast range of opportunities both locally and internationally. You will build your financial acumen by combining core knowledge of valuation, risk management, corporate finance and banking with practical application through case studies and simulations. This will place you at the forefront of career opportunities in financial and portfolio management, corporate finance, risk assessment, and business analysis.

Careers: Graduates enjoy careers in finance, banking, stockbroking, management consulting, corporate financial management and government agencies.
The UQ Employability Advantage Award is a free program designed specifically to bring out the best in you during your undergraduate studies. Participants can access a range of extra-curricular activities and professional development seminars including a unique symposium series.

By participating in the program, you will enjoy experiences that will help you realise your aspirations, become a leader in your chosen field, make a positive impact on society, and enhance your employability.

BOGART PHILLIPS
Bachelor of Business Management/Laws, Award Graduate 2016

The UQ Employability Advantage Award was a valuable avenue for me to explore and pursue a variety of extra-curricular activities during my time at UQ. These experiences profoundly enriched my university experience personally, professionally, socially and culturally. It was these activities that allowed me to really develop my innate character and mindset and proved most memorable during my studies. My experiences have allowed me to learn and explore my passions, interests and ambitions outside the classroom, equipping me with a more palpable sense of direction upon graduation.

YOUR ADVANTAGE

Enhance your employability through experiences

The UQ Employability Advantage Award is a free program designed specifically to bring out the best in you during your undergraduate studies. Participants can access a range of extra-curricular activities and professional development seminars including a unique symposium series.

By participating in the program, you will enjoy experiences that will help you realise your aspirations, become a leader in your chosen field, make a positive impact on society, and enhance your employability.

After completing all program requirements, you will reflect on your experiences and be able to effectively communicate your enhanced employability in the recruitment process.

You can apply for a formal certificate when you graduate that recognises the enhanced experience and skill set you have developed during your time at UQ.

UQ Employability Advantage Award
W: employability.uq.edu.au/advantage-award

Financial support

A UQ Employability Advantage Grant could help you realise your dreams. Grants worth up to $1000 are awarded for co-curricular activities such as internships, volunteering, research, leadership programs and conference participation.

Bachelor of INTERNATIONAL HOTEL AND TOURISM MANAGEMENT

The Bachelor of International Hotel and Tourism Management (BIHTM) will open up exciting career opportunities for you in the global tourism industry. This program will prepare you for a successful professional and managerial career in tourism, hospitality or events.

Why International Hotel and Tourism Management at UQ?
UQ Business School is internationally recognised for its tourism programs. It is the only Australian business school to offer programs that hold United Nations World Tourism Organization (UNWTO) accreditation. The BIHTM blends cutting-edge research and theory with practical exercises to develop your managerial abilities and business acumen. Our lecturers have strong industry and research experience, integrating their expertise into their teaching.

A special feature of this program is its Work Integrated Learning (WIL) component. Through WIL, you will have access to hands-on opportunities including individual placements, executive shadowing positions, wine immersion programs, Disney World internships, and domestic and international study tours.

What you will study
How can we promote tourism and ensure the sustainability of natural resources? How can social media impact the way we travel? What effects will the world’s growing population have on tourism? You will examine all of these issues and more in the BIHTM.

You will have opportunities to develop, promote, and deliver events, design and market tourist facilities and attractions, and engage in and evaluate hospitality encounters. Contemporary issues such as sustainability, innovation and customer service will be explored on local, regional and global levels. You will learn to develop solutions to current and future industry challenges, creating change wherever you go.

Professional memberships
Memberships are held with a diverse range of professional bodies:
JORDYN DEAMER
Bachelor of International Hotel and Tourism Management

Studying the Bachelor of International Hotel and Tourism Management at UQ has been an excellent experience so far as it allows me to explore all of my study and career options in a supportive and modern environment. When starting my degree, I wasn’t sure which major to study; however, the comprehensive curriculum offered to BIHTM students provided early exposure to all areas of the program, which helped me confidently select my major. My degree has motivated me to change how I think in ways that I never would have imagined, which has inspired me to ensure my career will have purpose and help the greater good on a global scale.
Career opportunities
Thanks to your advanced management training and impressive professional networks, you will be well positioned for a promising career in the tourism, hospitality or events industries. Our graduates are in high demand with employers, both locally and internationally.

Honours
This program functions as an extra year of high-quality study, showing employers you have what it takes to excel in the tourism, hospitality or events industries. The high-level research skills you develop will open up further opportunities for you in industry, or they could lead to a research higher degree program.

Majors
Develop in-depth skills and practical experience by choosing majors relevant to your desired career. You can specialise in one or two areas that align with your interests. A major consists of six courses from one area of specialisation.

Event Management
Event management is an exciting and growing industry. You will gain an understanding of the nature, characteristics and role of events, and specialist knowledge in all aspects of event management.

You will learn about the history and impact of festivals and study event operations for business, artistic, cultural and sporting events. You will also develop managerial and entrepreneurial capabilities in marketing, sponsorship and fundraising for events.

Careers: Graduates enjoy careers as event and festival managers, consultants, conference and convention centre managers, and in various roles in public and private tourism organisations.

Hospitality Management
As the hospitality industry shifts from a skills-based to a knowledge-based industry, higher learning has become critical for career success. This major focuses on the vibrant global hospitality industry, which includes hotel, restaurant and resort management. You will develop an understanding of and skills in the essence of hospitality, the international hotel industry, technological applications in hospitality management and large-scale services management, small business and entrepreneurship, casinos and gaming, and food and beverage management.

Careers: Graduates enjoy careers in management and marketing roles in hotels, resorts, casinos, restaurants, cruise-liners, commercial catering, and clubs.

Tourism Management
Tourism is one of the most important industries in Australia. This area of study covers tourism operations, destination marketing and policy. You will develop managerial expertise in issues relating to sustainability, ecotourism, policy and planning, visitor behaviour, and the environmental, social and economic impacts of tourism. You will be at the forefront of current and future trends and issues for the industry, including niche markets. Case studies and site visits provide practical and relevant skills and knowledge to ensure your success upon graduation.

Careers: Graduates enjoy careers in tourism organisations, tourism and hotel consultancies, and other tourism-related industries including wholesale and retail travel, airlines and the cruise industry.

Important
You need to ensure that the courses you select are appropriate for your program requirements and rules. Refer to the program plans at bel.uq.edu.au/program-plans. For a full list of courses and electives visit uq.edu.au/study. Note – courses are subject to change, and not all courses are offered every year. To be eligible to join professional bodies, you may be required to complete certain courses.

DOUBLE YOUR OPPORTUNITIES

As the world around you changes, new and fascinating career opportunities are created every day, and job roles increasingly combine multiple disciplines.

A dual program, also called a double degree, will equip you for this evolving job market. It gives you the flexibility to study two different disciplines in a much shorter time, by studying only the mandatory courses for each program with fewer or no electives.

Benefits to 'like'

Save time
Graduate with two bachelor programs in as little as four years – a much shorter time than it would take to study both programs separately.

Broaden your skills
A degree in business will equip you with the skills and self-confidence to effectively manage a wide range of competitive business environments. Complemented by studies in the Bachelor of Arts you will be placed at the centre of the contemporary information society and economy via skills in criminology, economics, public policy, sociology and writing.

Strike a balance
Why compromise when you can balance your studies and your sanity by pursuing both your career ambitions and your passion? Dual program students appreciate the diversity of topics offered in their two different programs.

Get an edge
As a dual program graduate you will have a competitive advantage with employers, and you will broaden your prospective employment to a wider range of industries.

Learn from the best
By studying in two disciplines you will benefit from exposure to a more diverse range of UQ’s outstanding teachers and researchers.
Bachelor of
ADVANCED FINANCE AND ECONOMICS (HONOURS)

The Bachelor of Advanced Finance and Economics (Honours) (BAdvFin&Econ(Hons)) is your passport to leadership in the fields of finance and economics.

Why Advanced Finance and Economics at UQ?

The program offers a limited number of places ensuring you will forge lifelong personal and professional connections with your cohort. Working with our top academic staff will help you establish strong links with leading employers. You may also have the opportunity to complete work placements at businesses and government agencies in Australia and overseas, and to study for a semester at one of our prominent international partner universities.

What you will study

What are the economic and social outcomes of policy changes? What effect has the global financial crisis had on macroeconomic theory and monetary policy? Which financial issues confront most companies? You will explore these issues and more in this interdisciplinary program taught by UQ Business School and the School of Economics.

You will develop the analytical rigour and technical knowledge to be an economist in a variety of public and private sector careers or a leader in finance, investment banking, capital markets, equity or venture capital. At the end of Year 3, you will choose a ‘pathway’ for your final year. Depending on your passions, you can pursue an employment-focused pathway or a dedicated research pathway in economics or finance.

Career opportunities

Potential career pathways include investment banking, funds management, management and financial consulting, stockbroking, infrastructure financing and development, international finance and trade or employment with a government agency such as the Reserve Bank of Australia. You may also go on to study for your PhD.

Honours

Honours is awarded to all graduates of this program in the following classes (based on GPA):
• Class I
• Class IIA
• Class IIB
• Class IIIA
• Class IIIB

Majors

You can develop greater depth of knowledge by undertaking a major that is relevant to your desired career. A major consists of courses from one area of specialisation to provide additional depth to the discipline. Undertaking a major may lead to further study in the discipline through a research higher degree, such as a PhD.

Economics

In this major you will take advanced courses in theoretical and applied economics and undertake a substantial piece of research in a chosen area of your interest.

Careers: Graduates enjoy careers as analysts, advisors and economists in the public and private sectors in fields including business, finance, international development, management or research.
Finance
In this major you will take advanced courses in theoretical and/or applied finance and have the opportunity to undertake a substantial piece of research in a chosen area of your interest.

Careers: Graduates enjoy careers in corporate finance, investment banking, stockbroking, management and financial consulting.

No major
You will complete a four-unit team project and various elective courses in economics and finance. The elective courses may comprise an internship and/or a tailored overseas study experience at one of our prestigious international partners.

Professional memberships
As a graduate, you may be eligible for membership with this professional body:

JOSEPHINE AUER
Bachelor of Advanced Finance and Economics (Honours)

After the new Bachelor of Advanced Finance and Economics program was announced I knew it was too good to pass up! The small size of our cohort is one of the many fantastic and unique aspects of this program. Coming from high school, I believe students underestimate the value of a smaller, tight-knit class, and the opportunity to have this at university is a big advantage. Being part of a smaller group ensures we receive valuable regular contact with lecturers alongside other opportunities not usually available to first-year students, including weekly seminars from industry professionals. The accelerated nature of this program is also a bonus – while skipping over a few of the basic, first-year subjects does have its challenges, it has allowed us to delve straight into an array of in-depth, practical courses. This has proven to be very rewarding and will continue to be so as we finish our degrees and commence our careers in the workforce.

Bachelor of Advanced Finance and Economics (Honours)

COMPULSORY COURSES
- Advanced Investments and Portfolio Management
- Advanced Macroeconomics
- Advanced Microeconomics
- Applied Corporate Finance
- Applied Econometrics for Macroeconomics and Finance
- Banking and Lending Decisions
- Data Analytics and Information Management
- Derivatives and Risk Management
- Economics of International Finance
- Financial Markets and Institutions
- Financial Modelling
- Fixed Income Analytics and Treasury Management
- International Financial Management
- Introductory Econometrics
- Macroeconomic Policy
- Mathematical Economics
- Microeconomic Policy
- Principles of Financial Accounting
- Principles of Financial Management
- Principles of Macroeconomics
- Principles of Management Accounting
- Principles of Microeconomics
- Quantitative Economic and Business Analysis A
- Tools of Economic Analysis

MAJORS
Economics
- Advanced Microeconometrics
- Honours Thesis
- Macroeconomics A
- Microeconomics A
- Macroeconomics B
- Microeconomics B

Finance
- Corporate Finance Honours or Empirical Finance Honours
- Empirical Finance Honours II
- Honours Thesis
- Scientific Method in Commerce

No major
- Advanced Corporate Finance
- Applied Econometrics for Microeconomics
- Competition Policy and Regulation
- Economics or Finance Team Project
- Financial Econometrics
- Financial Statement Analysis
- Game Theory and Strategy
- Monetary Economics
- Professional Work Placement

Important
You need to ensure that the courses you select are appropriate for your program requirements and rules. Refer to the program plans at bel.uq.edu.au/program-plans. For a full list of courses and electives visit uq.edu.au/study. Note – courses are subject to change, and not all courses are offered every year. To be eligible to join professional bodies, you may be required to complete certain courses.

Study with one of the largest and most influential economics schools in Australia.

RANKED #1

ECONOMICS RESEARCH INSTITUTION IN AUSTRALIA*

*According to Research Papers in Economics – a world-wide academic grading system.
Our lecturers are academic and industry leaders

You will be learning from some of the most talented economists in Australia. Our accomplished scholars claim a large share of Australia’s economics honours, competitive research grants, prestigious fellowships and high-quality publications. We are home to over 70 active teaching and research staff, including specialists in energy and climate change, productivity and efficiency analysis, development economics, and labour and agricultural economics.

Learning that pushes your boundaries

Our challenging academic environment attracts the brightest and best economics students from around the country and internationally. Of the 1200 enrolled in economics, more than 450 are international students. You will find the School to be collaborative and friendly. As a student you will be encouraged to be part of the rigorous debate that challenges and extends conventional economic thought.

Highly ranked

UQ’s School of Economics is consistently ranked in the top two per cent of research-intensive economics departments in the world. The school is a leading teaching and research centre both nationally and internationally. Our world-class academic staff and diverse range of courses will equip you with theoretical knowledge to address real-life problems. Economics provides meaningful solutions to many of the big issues facing our world, such as climate change, the ageing population, and assisting economies to be competitive in a globalised world.

Graduates in demand

Economics graduates are highly sought after and among the highest paid in Australia.* They work as economists in consultancy, for government, and for international agencies and employers including the Reserve Bank of Australia, the World Bank, the International Monetary Fund, federal and state treasuries, and government departments, city councils and local government, top consulting firms, financial services firms and global corporations. A training in economics teaches you to analyse and make decisions, skills which are sought after in most professions, which is why economics is one of the most popular combinations in dual degrees.

* Graduate Destination Survey, 2016

Above world standard

In the Excellence in Research for Australia (ERA) 2015 National Report, we ranked well above world standard in economic theory and above world standard in economics, applied economics and econometrics.

Nobel Prize Laureate

IN ECONOMICS (1994) FOR GAME THEORY, JOHN C HARSANYI (1920–2000), launched his academic career as an economics lecturer at UQ.

Strength

OUR RESEARCH STRENGTHS SPAN ECONOMIC THEORY, APPLIED ECONOMICS AND ECONOMETRICS

SOPHIE TAIT

Bachelor of Mathematics/Economics

The University of Queensland was highly recommended by a lot of my teachers and career advisors at school which piqued my interest, especially when I discovered that they offered the program which I was interested in studying. I enjoy the interactive learning environment my economics degree offers, as there are so many different people you can contact about the courses and program – this ensures I never feel confused about any of the content.

The Bachelor of Economics also has a large cohort and a prominent Economics Society which is great for socialising with like-minded people and working together on assignments and tutorial tasks in a friendly and supportive environment.
As a Bachelor of Economics (B.Econ) student, you will learn how people and organisations make decisions about using our scarce resources. Economics will train you to question, analyse, model and predict human behaviour; skills that are highly sought after in the workplace.

Why Economics at UQ?

UQ is the only institution in Queensland, and one of a select few in Australia, to offer the Bachelor of Economics. The School of Economics is Queensland’s largest, most experienced and influential economics school, with more than 70 active teaching and research staff. Our School’s research-intensive focus ensures content is engaging and relevant for graduates today and into the future. If you choose to study here, you will develop a range of statistical and analytical tools that you can use to solve pivotal policy and decision-making challenges for business and government.

What you will study

What does it mean if the Reserve Bank of Australia reduces the cash rate? How does climate change impact economies? How will the world address the ageing population? How can the government encourage innovation? These are just some of the questions that a Bachelor of Economics at UQ will help you answer.

Initially, you will develop core economic skills through a set of compulsory courses. You will then be able to tailor the program to your interests by choosing from more than 40 elective courses in areas such as econometrics, financial markets, international trade and development, and the economics of business, health, labour, resources and the environment.

Career opportunities

Economics graduates are highly sought after by employers. You could work as an analyst, advisor, consultant, economist or researcher in a range of fields including international consulting, infrastructure development and planning, environmental management, international finance, investment and trade, natural resource and agricultural economics, public health, treasury and statistics.

Honours

Our honours program is an extra year of intensive study for high-achieving students within a small-group learning environment. Honours will equip you with an advanced set of economics and research tools that will prove valuable as an economist or in a research higher degree program.

Professional memberships

As a graduate you may be eligible for memberships with a diverse array of professional bodies:
I have found studying my Economics degree at UQ to be both intellectually challenging and rewarding. The freedom to work on a personal research project with excellent support from lecturers and supervisors has greatly enhanced my learning experience. Completing my degree has largely been self-driven which I believe is good preparation for creating change later in life. The campus itself is very impressive - you can’t get much better than being surrounded by a winding river and architecturally inspiring buildings, with modern technology and leading-edge facilities available for student use.
**Majors**

You can develop greater depth of knowledge by undertaking a major in an area that is relevant to your desired career, or choose a mix of courses from across five majors.

**Business and Industry**
If you want the challenges of a fast-paced business career, this major is for you. Enhance your economic decision-making capabilities and learn how to apply them in the business sector, working to improve an enterprise’s competitiveness and efficiency. Courses cover issues such as managerial economics, industrial and labour economics, the regulatory environment and benefit/cost analysis techniques. You will develop critical thinking and understanding skills, applicable to businesses across all sectors and industries.  
**Careers:** Graduates enjoy careers within industry bodies, government departments, consultancies and private enterprise.

**Economics and Public Policy**
In this multidisciplinary major, you will learn how governments develop public policy and how government intervention can impact economies in an increasingly globalised world. You will be taught the tools, concepts and techniques to provide advice on policy development (such as taxation, education, health and transport) as well as to evaluate existing policies. Core courses in public finance and regulatory economics emphasise the theoretical framework and rationale for government intervention. Elective courses include advanced microeconomics, macroeconomics and political sciences.  
**Careers:** Graduates enjoy careers in public policy, government bodies, not-for-profits, private enterprise and politics.

**International Trade and Finance**
International trade and finance are key factors affecting the Australian and world economies. This major focuses on the economics of financial systems, mechanisms and emerging issues in today’s globalised economy. You will develop an understanding of the complex nature of economics in the international environment and its close relationship with financial management institutions. You will also gain the analytical skills for informing managerial and policy responses across business and government on international trade and finance issues.  
**Careers:** Graduates enjoy careers in financial institutions, government agencies, consulting firms, and Australian and international private enterprises.

**Natural Resources and Environment**
Today, the economic and ecological value of our diverse natural resources is recognised at the international, national and local levels. The effective use of these resources is an important social and political issue. This major will give you the economic analytical tools needed to solve key environmental problems, including the management of renewable and non-renewable natural resources (e.g., river systems, agricultural land, energy and minerals). You will understand and be equipped to deal with the challenges facing business, government and the wider community.  
**Careers:** Graduates enjoy careers in public policy, environment-focused agencies, private enterprise, mining and energy companies.

**Quantitative Methods**
In this major you will learn how to provide rigorous, evidence-based economic analysis that is verifiable and objective. It has a strong mathematical focus, covering measurement, analysis, projection and modelling for a diverse set of economic factors and scenarios. This area of economics is developing quickly and is becoming increasingly sought after by employers as it can provide real, data-informed answers to difficult questions, allowing for better decision-making by governments and businesses. You can select courses in the areas of econometrics, benefit/cost analysis, advanced mathematical economics, business and economic decision techniques, and experimental economics.  
**Careers:** Graduates enjoy careers in high-level finance and investment, research consultancies, management organisations, private business and government-orientated enterprises.

For more information economics.uq.edu.au/undergraduate-programs
The new Bachelor of Politics, Philosophy and Economics (Honours) (BPPE(Hons)) program combines rigorous cross-disciplinary training and explores global policy challenges to help you pursue a leadership career in business, politics, the NGO sector or academia.

Why Politics, Philosophy and Economics at UQ?
UQ has joined with the distinguished group of world-leading universities to offer a Bachelor of Politics, Philosophy and Economics (Honours). We are the only university in Queensland to offer the program, and one of only a handful in Australia.

This cross-disciplinary program combines courses from the Faculty of Business, Economics and Law and the Faculty of Humanities and Social Sciences, both of which are ranked 30th in the world* by faculty area.

Our schools are home to internationally renowned scholars. School of Economics academics claim a disproportionate share of Australia’s economics honours, competitive research grants and fellowships. The School of Political Science and International Studies is one of the world’s leading centres for the study of national and global politics, and received the maximum score of 5 in the 2015 Excellence in Research for Australia (ERA) assessment.

*2015 QS World University Rankings

What you will study
You will study together as a small cohort of highly motivated and high-achieving PPE specialists, drawing on a historical, social, political and economic knowledge base to examine current and future global challenges and the world’s most pressing problems.

Career opportunities
With your finely tuned research, analytical, critical reasoning and problem-solving abilities, you will be extremely employable in analytical and decision-making positions in the public, private and not-for-profit sectors as an economic or social analyst, policy-maker, public commentator, political advisor, or as a leader in international affairs or the diplomatic services.

You will also be well prepared for postgraduate study. You may choose to further your research ambitions by enrolling in a Master of Philosophy or PhD program, where you will continue to develop your skills and make significant contributions to knowledge.

Honours
Honours is awarded to all graduates of this program.

Majors
You can develop greater depth of knowledge by undertaking a major in an area that is relevant to your desired career. In your fourth year, you may choose to specialise in one particular discipline, earning a major in either politics, philosophy or economics.

Politics
As a student in this major you will study the interactions of state and market in great detail through case studies of particular policies and institutions, and at a more general level through theories of governance and politics.
Careers: Graduates enjoy careers in policy-making areas, such as government, the public and NGO sectors, and business.

Philosophy
The study of philosophy will introduce you to key ideas in a range of areas of inquiry including epistemology, ethics, logic, metaphysics, the history of philosophy, and the philosophy of disciplines such as art, science, education and politics. You will receive intellectual training in the critical evaluation of theories and arguments, and learn how to construct arguments and communicate ideas in a clear and powerful way. You will also acquire advanced analytical reasoning skills and general problem-solving abilities. In addition, philosophy will help you develop sound methods of research and analysis that can be applied in your other courses.
Careers: Graduates enjoy careers as analysts, advisors or economists in the public and private sectors in fields including business, finance, international development, management or research.

Bachelor of Politics, Philosophy and Economics (Honours)

COURSE LIST
CHOOSE FROM A RANGE OF COURSES INCLUDING:

- Advanced Topics in Moral and Political Philosophy
- Critical Reasoning
- Landmarks of Political Science
- Introduction to Strategic Thinking
- Philosophy Today
- Political Philosophy
- Politics and the Economy
- Power, Politics and Society
- Professional Work Placement
- Social and Economic Justice
- Tools of Economic Analysis

TC BEIRNE SCHOOL OF LAW

Study at one of the most prestigious and respected law schools in Australia.

Ranked as the 45TH BEST LAW SCHOOL IN THE WORLD*

*2016 QS World University Rankings
opportunities to advance your career and education while engaging and socialising outside the classroom.

Our active student organisations will enrich your university experience by providing you with a wealth of

Student societies
Our active student organisations will enrich your university experience by providing you with a wealth of

The University of Queensland Law Society (UQLS)
The student-run UQLS plays an essential role in student life. It promotes the interests of law students in academic and educational matters, facilitates student engagement with the legal profession, and arranges sporting, social and cultural activities to enhance the UQ law student experience.

Justice and the Law Society (JATL)
JATL is a law student organisation that promotes awareness of the law and its implications for social justice, including gender equality and discrimination issues. Under the patronage of The Honourable Justice Debra Mullins of the Supreme Court of Queensland, JATL prides itself on a diverse membership consisting of UQ law students, legal professionals, academics and members of the wider community. It boasts a busy calendar of social events and career development programs.

Australian Legal Philosophy Students Association (ALPSA)
ALPSA promotes the study of legal philosophy among law students, academics and the legal profession. This focus is particularly important for students, as it provides a practical examination of the law and is complemented by the advocacy skills fostered through formal study and competitions, including those run by student societies. Annual ALPSA events include a panel discussion on a topical jurisprudential issue, a national essay competition, and a legal philosophy moot. The society also holds regular social functions for its members.

Premier legal education
The TC Beirne School of Law is a leading Australian law school with an illustrious history. Our School boasts world-class, state-of-the-art facilities including one of Queensland’s largest law libraries and the Sir Harry Gibbs Moot Court. We offer premier legal education through small group teaching complemented by a comprehensive co-curricular program.

Graduates in demand
Since welcoming our first students in 1936, we have earned a distinguished reputation as Queensland’s leading provider of legal education, producing highly sought-after alumni. The TC Beirne School of Law attracts the best and brightest students from Australia and abroad through its competitive entry requirements. We cultivate exceptional legal thinkers and leaders who use their discipline, ingenuity and initiative to change and enrich the world.

Our lecturers are academic and industry leaders
Our staff, most of whom have doctoral or advanced qualifications, are talented and committed researchers and educators who have received many national and international teaching excellence awards. As a student you will benefit from additional teaching and research expertise delivered by domestic and international visiting academics, professionals and adjunct professors.

Learning that extends your boundaries
Our School’s expanding international outlook combines innovative research with advanced teaching and learning. Our highly collaborative learning environment will challenge and stimulate you to develop a comprehensive understanding of the law while cultivating excellence in critical reasoning and lateral thinking.

Lifelong learning and networking with your alma mater
The University of Queensland Law Alumni Association (UQLA) was established in 1994 to foster links between graduates and the Law School. It provides a valuable forum through which members can maintain links with other graduates and forge new ties with others in the legal profession. As a graduate of our School, you are automatically considered a UQ alumnus and are entitled to become a member of the UQLA. The UQLA has been the driving force behind the Law School’s co-curricular program.

The University of Queensland International Law Society (UQILS)
UQILS was founded to make the diverse and developing field of international law more accessible to UQ students. By providing knowledge, skills, experience and connections, UQILS seeks to create opportunities for its members to engage with international law, and to network with professionals and fellow students. UQILS runs a number of events for students to engage in international law, ranging from regular workshops on issues relevant to international law to discussion panels with leading academics and practitioners.

EMILY MCCLELLAND
Bachelor of Arts/Laws (Honours)
Studying Law at UQ has allowed me to undertake a wide range of interesting subjects while pushing me to explore ideas external to my world view and participate in activities outside of my comfort zone. My lecturers come from a range of diverse backgrounds and have undertaken amazing work within the community which inspires me to do the same. I have been heavily involved with both the JATL and the UQLS, where I am the President for 2017. I truly believe that being involved in these societies has enriched my time at UQ. I’ve met many new people, made lasting business connections within the legal profession, and been able to develop my professional skills which will be highly valuable as I commence my career in law.
LEARNING BEYOND THE CLASSROOM

The TC Beirne School of Law has fostered strong working relationships with the community and the legal fraternity. Through these relationships, our students influence the law and its institutions for the benefit of society.

The UQ Pro Bono Centre

Strong ethical standards and social responsibility are at the core of the professional values we seek to instil in our students. The UQ Pro Bono Centre has fostered our students’ participation in providing legal assistance and support for pro bono and public interest work since 2009. The centre partners with a wide range of organisations to facilitate student pro bono work, including private law firms, barristers, community legal centres and charities.

You will have the opportunity to apply your classroom learning to real-life situations and make important contributions to unmet legal need in your community, all before graduation. Our law students provide support to organisations such as the Queensland Council for Civil Liberties, Community Legal Centres Queensland, Cancer Council Queensland, Tenants Queensland and the Royal Flying Doctor Service. In 2016, the centre won a prestigious national award recognising its impact on student learning through engagement, and in 2013 received a University of Queensland Award for Programs that Enhance Learning (APEL).

The centre’s advisory board, comprising senior members of the legal community in Queensland, advises the centre on its strategic partnerships with the legal profession. The centre’s patron is The Honourable Justice Peter Applegarth.

You can learn more about the UQ Pro Bono Centre here: law.uq.edu.au/uq-pro-bono-centre

Clinical Legal Education

Gain valuable work experience for academic credit by working in a community legal centre. 2017 clinics include:
- Consumer Law Advice
- Disability Law
- Environmental Law
- Health Advocacy Law
- Homeless Person’s Law
- Mental Health Law
- Prison Law
- Public Interest Law
- Refugee and Immigration Law
- Social Security Law
- Tenancy Law.

In 2018, the centre will also offer a select number of international clinical legal placements (Myanmar and Borneo, Malaysia) for students to work on access to justice projects overseas.

Pro Bono Roster

The centre’s Pro Bono Roster provides links to volunteer opportunities within the legal fraternity and community organisations, where you can support pro bono and public interest work.

The Manning St Project allows you to pursue your interest in policy and law reform, public interest research or community legal education. You will work under the supervision of practising lawyers and academics at Caxton Legal Centre in South Brisbane.

These opportunities offer the personal fulfilment of working for the benefit of the community, but often also result in invaluable work experience and professional networking.

High Schools Program

Get involved in one of the community legal education programs offered by the UQ Pro Bono Centre:
- Asylum and Refugee Law
- Domestic Violence and the Law
- International Humanitarian Law (run in conjunction with the Australian Red Cross).

As a participant, you will liaise and deliver lesson plans on these areas of law to high school students in the greater Brisbane area.

Co-curricular program

In partnership with the UQ Law Alumni Association, the co-curricular program complements core areas of study throughout your degree to give you a real-world understanding of how the concepts you are studying manifest in legal practice. All first-year students have the opportunity to participate in an immersion day at the Supreme Court that includes a guided tour, observation of a trial and presentations by eminent legal professionals.

Internships and work experience

Gain valuable work experience by undertaking an internship. Prospective employers value all types of work experience and interning is a great way for you to develop your skills and enhance your CV.

The UQ Pro Bono Centre received a prestigious AUSTRALIAN AWARD FOR UNIVERSITY TEACHING in 2016.
The Barristers Work Experience Program
An initiative of the Bar Association of Queensland and The University of Queensland Law Society, this is an immersive work experience placement with a participating barrister. You will undertake legal research and shadow your barrister to court and meetings. The program aims to develop your legal skills and provide you with first-hand insight into a career at the bar.

The Aurora Native Title Internship Program
This program places Australian law students with Native Title Representative Bodies (NTRB) and other Indigenous organisations. As a participant, you will be exposed to career opportunities while providing assistance to under-resourced organisations. Typical duties include preparing briefs for counsel and government submissions, legal research, preparing affidavits, and attending court with NTRB staff.

The Office of the Director of Public Prosecutions (ODPP) Work Experience Placement Program
Aimed at law students with a genuine interest in criminal law, this program will give you practical experience through exposure to a wide variety of criminal law matters and will develop your knowledge of the criminal justice system.

The Practitioner-in-Residence Program
This program was introduced in 2013 to enable judges and legal practitioners to share their insights and expertise with the Law School community. Participants interact with students and staff to reflect on the practice of law, discuss issues relevant to both academia and practice, and link this with research and theory. Visiting practitioners take part in a variety of campus activities such as student mentoring, delivering guest lectures and participating in practice moots.

Research and getting published
You will be encouraged to engage in high-quality, in-depth research on contemporary law and justice issues and to seek to have your research published. You will have the opportunity to work closely with leading academics across a variety of areas of law.

Mooting program
Mooting competitions are mock legal hearings in which legal or factual arguments are presented in a hypothetical case before a judge, tribunal member or arbitrator.

As a UQ law student, you can participate in a wide range of mooting competitions that will help you develop legal knowledge, research and communication skills. With more law students participating in competitions than ever before, we entered 16 teams in competitions during 2016. Coached by academic staff and alumni, our moot teams achieve tremendous success in local, national and international mooting competitions year after year. UQ has won many prestigious titles, including the Sir Harry Gibbs Constitutional Law Moot, the National Administrative Appeals Tribunal Moot, the International Maritime Law Arbitration Moot, and the Philip C Jessup International Law Moot Court Competition.
Why Law at UQ?

Our courses are taught in small group settings and informal learning spaces in the Forgan Smith Building, which has been refurbished specifically for law students. You’ll have the opportunity to test your knowledge with your peers and professors in an active learning environment.

This program offers a thorough understanding of the concepts, principles, policies and values of the law, both in Australia and other jurisdictions. Develop outstanding skills in critical, rational and analytical thinking, and learn how to craft clear and persuasive arguments – skills that will be valuable in whatever career path you choose.

Graduate with an internationally respected honours qualification, with advanced knowledge and skills (both personal and professional) that are transferable across a wide range of careers and will set you apart in a competitive job market while also providing a pathway to future research or learning.

In addition to the courses required for professional admission, the LLB(Hons) offers a range of elective courses and exclusive extracurricular activities where you can put the knowledge acquired in the classroom into practice.

Bachelor of LAWS (HONOURS)

The Bachelor of Laws (Honours) (LLB(Hons)) provides you with a quality education preparing you for success in the legal profession. Distinguished by rigour, depth and conceptual sophistication, you will develop knowledge and skills that can be used to shape societies, governments and, ultimately, the world.

INTERNATIONAL RECOGNITION

The LLB(Hons) fulfils the academic requirements for admission as a legal practitioner throughout Australia. Students from Singapore, Malaysia or India may use the LLB(Hons) to fulfil the academic qualifications required for admission to the legal profession in their home country. Once admitted in Australia, overseas students may only need to complete limited conversion modules to be eligible for admission in their home country.

Why Law at UQ?

Our courses are taught in small group settings and informal learning spaces in the Forgan Smith Building, which has been refurbished specifically for law students. You’ll have the opportunity to test your knowledge with your peers and professors in an active learning environment.

This program offers a thorough understanding of the concepts, principles, policies and values of the law, both in Australia and other jurisdictions. Develop outstanding skills in critical, rational and analytical thinking, and learn how to craft clear and persuasive arguments – skills that will be valuable in whatever career path you choose.

Graduate with an internationally respected honours qualification, with advanced knowledge and skills (both personal and professional) that are transferable across a wide range of careers and will set you apart in a competitive job market while also providing a pathway to future research or learning.

In addition to the courses required for professional admission, the LLB(Hons) offers a range of elective courses and exclusive extracurricular activities where you can put the knowledge acquired in the classroom into practice.
You can also access the full range of employability services on offer from the dedicated BEL Student Employability Team (BEL SET); see pages 36–39 for more information.

**Career opportunities**

**Legal practitioners**
After completing an LLB(Hons) from UQ, you must also satisfy the practical legal training requirements before you can be admitted as a legal practitioner. Examples of career opportunities include:

- **Solicitor**
  Solicitors (as sole practitioners or in law firms) are usually the first point of contact for members of the public seeking legal advice. Solicitors are also employed by businesses, government, community and international bodies to provide legal advice, prepare legal documents, develop policy and advise on legal reform issues.

- **Barrister**
  Barristers represent their clients’ interests in court proceedings as specialist advocates. Usually they work independently and choose to specialise in particular areas of the law. They also provide oral or written advice on matters within those areas.

**Industry**
In addition to being a prerequisite for legal practice, the analytical and research skills you develop in the LLB(Hons) program will help you secure a career in many other sectors, including:

- **Government**
  Law graduates work in various sectors of state and federal government. They can work as legal officers within government departments or may be involved in developing government policy or in administration. They may also embark on a career in the diplomatic and foreign service.

JOSHUA HALIKOS
Bachelor of Economics/Laws (Honours)

“One of the best things about UQ and my law program is the amazing diversity of the people who I have the opportunity to meet, interact with, and learn from. Whether I am discussing course content with a lecturer or working on an assignment with my peers, I am constantly gaining new and interesting insights into issues related to my program and the wider world as a whole. My experience so far has encouraged me to improve my understanding of other perspectives, motivating me to consider the marginalised and oppressed in my decision-making and campaigning in my future career.”
• Corporate
Many law graduates work as in-house lawyers for large companies where they undertake work in a wide variety of areas such as legal compliance, corporate governance, insurance, environmental compliance and employment law.

• Business
Using their law program – often combined with a business management, commerce or economics program – many graduates undertake careers in the business world in areas such as investment banking, insurance, property development and management. Others pursue careers in the consulting industry, working to provide solutions to a wide range of clients.

• Community support and social development
Graduates can use their law program, combined with any other program, to work for industry associations, lobby and environmental groups, social service groups, ‘think tanks’, community service organisations, legal aid and community legal centres.

Academia
Law graduates are well-equipped to pursue careers in academia. Those with a passion for research and teaching can pursue further study and seek positions where they can contribute to legal scholarship while educating the next generation of legal practitioners.

Honours
Honours is awarded to all graduates of this program in the following classes (based on GPA):
• Class I
• Class IIA
• Class IIB
• Class IIIA
• Class IIIB

• Privacy Law
• Private International Law
• Research Projects
• Succession Law
• Unjust Enrichment

* Not all electives are offered every year
Since 1936 we have earned the reputation of QUEENSLAND’S LEADING LEGAL EDUCATION PROVIDER

The iconic Forgan Smith Building, home to the TC Beirne School of Law, has stood proudly on the UQ campus since the first sandstone block was laid in 1937. We have now undertaken a major renovation of this grand structure that embodies our vision for the future.

The multi-million dollar refurbishment has preserved and enhanced the school’s historic façade around a state-of-the-art new interior. The building has been transformed from within, opened up to breathe and take in natural light with the creation of more spaces for you to learn and study.

Inquiring minds thrive on collaboration and spirited debate, but also need quiet spaces for reflection. Research and academic spaces in the new Forgan Smith Building now accommodate your diverse needs for both independent study and informal or formal group learning.

Our new teaching practices will prepare you for working in a new age of global legal practice, with multi-disciplinary teams and collegiate and cooperative working styles. We aim to produce a strong cohort with a sense of belonging by centring our learning activities in the heart of the school.

While legal study has historically been book-based, today’s environment demands an extra layer of interactivity – information available on demand, from any location, so it is more easily shared and accessible. Our new learning environments now reflect this change with a range of options to suit your needs.

The Walter Harrison Law Library has been integral to the education of generations of UQ students. Expanded and refurbished over the years to adapt to the ever-changing delivery of information and learning needs of students and academics, its greatest transformation has now arrived through its exciting redevelopment.

The re-imagination of Forgan Smith ensures future generations of UQ law students will continue to enjoy the highest quality and most relevant legal educational experience. We aim to continue attracting students like you, the best and brightest of your generation, destined to excel in your profession and create change in the world both at home and abroad.
SET YOUR CAREER IN MOTION

The Business, Economics and Law faculty’s award-winning Student Employability Team (BEL SET) is dedicated to helping you access opportunities, increase your employability and manage your career.
We recommend you start developing your employability skills and building your personal and professional profiles as soon as you commence at UQ, to explore your career options and gain several years of practice and experience to include in your CV when you graduate.

Through the award-winning BEL SET programs, you will learn and apply employability skills that will help you stand out from the crowd in a highly competitive job market.

We partner with external employers, alumni, businesses, government and community organisations to connect you with work opportunities and to promote industry awareness and engagement.

Access BEL SET’s tailored programs and services at every stage of your studies – as an undergraduate or postgraduate student, as well as for six months after graduation.

Pre-degree:

Get SET
Discover the BEL SET programs and services available to you as a UQ BEL student, including:

• information about careers and job sectors to help you decide on a career path
• hands-on experience working on real industry projects with the not-for-profit sector
• individual consultations including guidance about career options and mock interview sessions
• workshops to equip you with the skills and attributes to be work-ready
• networking events and opportunities to connect with industry
• work experience/internships
• UQ StudentHub – an online careers portal where you can access details of job vacancies and internships
• information on closing dates for graduate applications with major Australian employers
• UQ Employability programs, UQ Careers Service, Going Global and Global Grad.

Early degree:

SET in motion
Participate in a series of programs and workshops designed to SET you up with insight on career options and employability skills:

• Consult with BEL SET to create your Career Attainment Plan.
• Create a CV and LinkedIn profile.
• Seek part-time work.
• Get involved in voluntary work and on-campus activities.
• Review the online career insight resources on the BEL SET StudentHub site.

‘A Day In The Life’ event series
Connect with a panel of young professionals about their careers and experiences transitioning to work after graduation. Aimed at first and second-year students, these sessions give you an insight into what it would be like to do their job, helping you explore possible career options in different industries.

BRONTE WILSON
Bachelor of Commerce/Economics

“UQ offers an extensive career support network for students, specifically through the BEL Student Employability Team (SET). SET has provided me with numerous avenues from which to gain motivation and assistance to set myself up for a successful career upon graduation. The Edge Leadership Series gave me the opportunity to hear from inspiring leaders about how they have created change in the world, while the Student Work Experience Program (SWEP) assisted me in obtaining work experience at QIC during the university break. Through this placement, I was able to gain hands-on practical exposure to financial modelling, which involved analysis and presentation of findings to the interest rate and credit teams.”
Mid-degree:
SET the bar high
• Book a consultation with BEL SET for help with internship applications.
• Apply for internships and vocational work-integrated learning programs.
• Take part in the Community Engagement Program (CEP) and seek voluntary work opportunities.
• Attend the interactive Career Success Program workshops.
• Participate in networking events.
• Take part in work-shadowing and workplace cultural excursions.
• Apply for the Student Work Experience Program (SWEP).

Community Engagement Program (CEP)
Make a positive impact and create change in the community by applying your classroom knowledge to projects in the not-for-profit sector. The program will challenge you to develop your leadership capability and your business-planning, strategy and networking skills. CEP is an opportunity for you to grow your network, gain employability skills and build your personal and professional profile.

Career Success Program (CSP)
Partnering with industry experts, this program can assist you with achieving long-term career success. Workshop topics include organisational culture and awareness, preparing CVs and applications, interview techniques, LinkedIn strategy and positioning, elevator and online pitch, and negotiation, interpersonal and presentation skills.

Student Work Experience Program (SWEP)
This mock recruitment and work experience program for mid-course students provides the opportunity to practise participating in a competitive assessment centre recruitment process, similar to those used by large organisations. Successful candidates will secure professional unpaid work experience for two to three weeks during the end-of-semester break.

Penultimate and final year:
SET for success
Recruitment for graduate roles often commences a year prior to graduation. BEL SET can help ensure you are prepared.
• Become a mentee in our BEL Career Mentoring Program.
• Attend employer-led workshops for help with applications.
• Have an individual consultation focused on applications and mock interviews.
• Attend professional networking events.
• Get inspired at The Edge Student Leadership Series events.

BEL Career Mentoring Program
Complement your academic knowledge by connecting with a personal industry mentor – often a BEL alumnus. Mentors are an invaluable source of insight and support as you make the transition from student to graduate. Your mentor can share tips on how to apply your learning to work, help you understand what attributes and behaviours are valued in the workplace, and guide you in using your existing skills to find work experience.

Employer-Led Workshops
Learn about upcoming graduate employment opportunities and hear directly from employers on how to prepare and succeed with your applications including pre-preparation, psychometric testing, interviews, assessment centres and managing offers. These workshops are an excellent opportunity for you to network with employers to make a great first impression.

The Edge Student Leadership Series
Hear from inspirational leaders including CEOs, managing directors, partners, general managers and entrepreneurs across a range of industries. Our guest speakers share their personal and career journeys, giving you invaluable first-hand insight into how business leaders got to the top of their game and how they overcame any challenges they faced.

Management Consultancy Challenge
If you want to be challenged and make an impact, a career in management consulting could be for you. A select group of BEL students will attend the stage event of this program and have exclusive early access to a group of leading management consulting companies and mentors. It will help shape your thinking about your future career and provide you with time to ensure you are fully prepared for the application process.

Post degree:
SET for life
You have been studying alongside your future colleagues, so it is worthwhile staying connected with them through UQ’s alumni community via the popular Alumni Lecture Series and other engaging events.

To support your transition to work, for six months post-graduation you can continue to access individual consultations with your BEL SET contact and attend BEL SET workshops/events.

After some time in the workforce, you can continue to develop your employability skills by participating in SET workshops as a guest speaker or mentor.
The BEL Student Employability Team is the proud winner of the employability category in the prestigious Australian Financial Review’s 2016 Higher Education Awards.

To find out more about this impressive accolade, or to learn more about our award-winning programs and events, visit bel.uq.edu.au/set or book your FREE 1:1 consultation with a BEL SET Employability Specialist by emailing careers@bel.uq.edu.au

AND THE AFR AWARD GOES TO... BEL SET!

BUILD YOUR personal and professional PROFILE by participating in BEL SET’s programs
YOUR GLOBAL ADVENTURE

See the world differently with a global experience while studying at UQ.

REEGAN BROWN
Bachelor of Engineering (Honours)/ Commerce

I could not have imagined just how incredible going on exchange to the University of British Columbia would be, and just how much I would learn from this adventure. The classes at UBC were small, interesting and highly engaging, and the lecturers valued class discussion, which greatly assisted my learning experience. Living on campus in an apartment with three other exchange students was a fantastic way to get involved in the university life, meet people and make new friends.

The crystal blue lakes, massive snow-capped mountains and beautiful terrain I travelled to on a road trip after finishing my studies are a must-do for anyone visiting Canada!

Why study overseas?

- Improve your foreign language skills
- Broaden your work and study options
- Enhance your employability
- Establish a global network of friends
- Gain credit towards your UQ program
- Choose from 200 exchange partners in 41 countries

UQ Abroad offers a wide range of overseas experiences, including semester-based student exchange, short-term study, internships and volunteering.

uq.edu.au/uqabroad
Interested in studying a Bachelor of International Hotel and Tourism Management (BIHTM) program and travelling abroad?

Take advantage of our exclusive exchange opportunity by studying overseas at two of our premier partner institutions in Hong Kong and Thailand. You will gain credit towards your UQ program, broaden your degree experience through hands-on, practical experiences, gain a new perspective on your studies, and expand future employment opportunities. Scholarships are also available. Further information: bel.uq.edu.au/study-overseas

Short-term global experiences

Want to study, work, or live overseas for only a short time?

With UQ Abroad’s international short-term programs, you can have an amazing global experience during your semester breaks. Some experiences are eligible for academic credit transfer towards your UQ program, so you can fast-track your studies by completing courses at an approved host university in Asia, Europe, the USA or Latin America.

Universitas 21 student experiences

UQ is a member of Universitas 21 (U21), an international network of leading research intensive universities. U21 encourages students to have a global perspective and be prepared for life and work across cultures by facilitating student mobility opportunities. You can apply to participate in U21 student experiences such as the annual Undergraduate Research Conference, Social Entrepreneur Corps program and Summer School.

Student exchange program

Study overseas for up to one year while gaining credit towards your UQ degree.

Choose from over 200 exchange partners in 41 countries, combine study and travel, and have the adventure of a lifetime.

While on exchange, tuition fees at the host university are waived and you continue to pay fees and be enrolled at UQ. You can even apply for student exchange scholarships and may be eligible for an OS-HELP loan to assist with airfares, accommodation, health insurance and living costs.

Dedicated international mobility coordinator

As a business, economics or law student, you have access to a dedicated staff member with a wealth of experience to help you plan and apply for your international mobility exchange. The BEL faculty strongly encourages you to take up this opportunity to see the world and gain invaluable experience learning and living in another culture; experience that can provide great advantages in future employment and career development.

I thoroughly enjoyed the classes I studied at the University of Copenhagen and found juggling study with travelling and socialising very manageable. I met such a diverse mix of amazing people, forming lifelong friendships extending across the world. I explored places I wasn’t sure I would ever see in my lifetime and learnt how to be independent but also flexible and adaptable.

My biggest piece of advice for anyone going on exchange would be to say yes to every opportunity that comes your way and throw yourself wholeheartedly into everything on offer. Doing this, you will meet wonderful people, try new interesting things and develop so much as a person.

Bachelor of Arts/Laws
YOUR SCHOLARSHIP OPTIONS

Make your university experience easier and more affordable with the support of a scholarship.

You may not think you’re eligible for a scholarship, but with many, many different opportunities available, you should definitely take some time to explore your options and apply.

When you’re reading this, you’re probably completely preoccupied thinking about exams, the formal, graduation, and schoolies; however, spare a few moments as early as possible in 2017 to plan your application for a UQ scholarship, and make your university experience even more enriching.

You might be surprised at how many scholarships you are eligible to apply for!

Undergraduate Scholarships and Prizes Office
W: scholarships.uq.edu.au
E: ugscholarships@uq.edu.au
T: +61 7 3365 7113

Get in early
Scholarship applications close at different times throughout 2017 – plan your response and apply early so you don’t miss out!

Some of our many scholarships include:

ACADEMIC
UQ’s Academic Scholarship Program supports the continued achievements of outstanding school leavers.

If you are a high-achieving student and are completing Year 12 in 2017 (or you completed Year 12 in 2016 and are on a gap year), you are encouraged to apply.

Several scholarships also provide financial assistance for specific areas of study.

For detailed and up-to-date information about academic scholarships, visit scholarships.uq.edu.au

EQUITY
UQ strongly supports equitable access to education for students who might not otherwise be able to attend university. We offer many scholarships to provide opportunities for such students, including but not limited to:

The TC Beirne School of Law Leadership, Excellence and Diversity Scholarships
Awarded to up to 15 outstanding Australian Year 12 students from non-selective government schools who are successful in gaining admission to the Bachelor of Laws (Honours) (LLB(Hons)) or an LLB(Hons) dual program at UQ.
Award Value: $7000 per year up to five years

UQ Link Scholarships
Awarded to applicants who apply to study at UQ and have experienced educational disadvantage due to financial hardship.
Award value: $9000 over three years.

Indigenous Commonwealth Scholarships
The federal government provides financial support to Indigenous students to help with the costs of going to university. For detailed and up-to-date information about these scholarships, visit scholarships.uq.edu.au

SPORTING
UQ Sporting Scholarships are awarded to outstanding new and continuing students who are both academically gifted and have demonstrated exceptional ability in their chosen sport. Though there are several sporting scholarships, the two main options UQ offers in partnership with UQ Sport are:

UQ Sports Achievement Scholarship
Awarded to outstanding new and continuing students who have demonstrated exceptional ability in their chosen sport.
Award value: Up to $9000 for one year.

The Clem Jones Sporting Scholarship
A scholarship awarded to students with academic ability, and who have the potential to perform at a high level in their chosen sport. Preference will be given to applicants with demonstrated financial need.
Award value: Up to $18,000 over three years.

Apply for a UQ Sporting Scholarship
T: +61 7 3365 6612

Please note: All figures were correct at time of printing but are subject to changes; see scholarships.uq.edu.au prior to applying to confirm correct values.
Are you an international student?

While a lot of information in this guide is relevant to you, certain key information may be different for international students.

You are an international student if you are:

• intending to study on a student visa, or
• not a citizen of Australia or New Zealand, or
• not an Australian permanent resident, or
• a temporary resident (visa status) of Australia.

Eligibility for UQ study

For admission into undergraduate programs at UQ, you must have:

• completed recognised upper secondary or equivalent Year 12 studies to the required standard
• satisfied individual program requirements (e.g. specific subject prerequisites, auditions or interviews)
• satisfied English language requirements.

If you do not meet these criteria, you might consider taking the Foundation Year bridging course offered by International Education Services (IES) or English language training offered by the Institute of Continuing and TESOL Education (ICTE-UQ).

Tuition fees

UQ has program-based fees for coursework award programs, meaning that all courses within a program are charged at the same tuition fee rate per unit for a given academic year.

Fee information

W: future-students.uq.edu.au/apply/international/ tuition-fees

Other expenses

All international students applying to study in Australia must have a student visa and study full-time, on campus. Please consider expenses such as visa and medical (pre-departure) fees, tuition fees, general living expenses, return airfares, and Overseas Student Health Cover (OSHC) when you plan your budget.

Applying to UQ

How to apply

TZE JIN GAN (CRYSTAL)

Bachelor of Commerce

The education I have gained at UQ while living in the beautiful city of Brisbane has given me confidence in myself as a person and my abilities as a future employee.

Want more information?

If you would like to know more about your study options at UQ, feel free to ask a question through our enquiry online form and one of our UQ advisors will respond to you. Feel free to register for an advisory session, and if you are in Brisbane, why not sign up for a campus tour to see our beautiful campuses?

We also have a range of publications, including the international undergraduate and postgraduate student guides to help you.

Program guides

YOUR FINANCES

Understanding the costs involved will help you be better prepared for university life.

Fees and costs
Course fees and student contributions
When you study at university, at the start of each semester or teaching period you are charged a fee for each course you enrol in. Most undergraduate places at UQ are Commonwealth supported, i.e. funded partly by the Australian Government (Commonwealth support) and partly by you (student contribution).
You qualify for Commonwealth support if you are an Australian or New Zealand citizen, or an Australian permanent resident and have a Commonwealth-supported place (CSP).
International students pay full tuition fees. If you have a CSP, the amount you pay for a course (your student contribution amount) depends on the fee band level of the course (see table below).
It is not possible to publish a fixed fee for a program, because fees are charged according to the courses you choose, not the program you are enrolled in, and most students can choose different electives during their program.
Indicative annual fees (based on average first-year enrolment patterns) are listed on our Future Students website to help you plan your budget.

Future Students

Student Services and Amenities Fee (SSAF)
In 2011, the Australian Parliament passed legislation allowing universities to charge a fee for non-academic services such as sporting and recreation activities, employment and career advice, child care, financial advice, and food services. UQ levies the SSAF – which is capped at a maximum of $294 for 2017 – according to whether you are an internal or external student, full-time or part-time. The fee is indexed annually.

SSAF

Proposed higher education reforms
The Australian Government intends to finalise revised higher education reforms for 2018 by mid-2017.
Visit the Study Assist website to view 2018 updates as they become available.

StudyAssist
W: studyassist.gov.au

Fee calculator
To help you estimate your course fees for a study period, UQ has an online Fee Calculator.
Fees for 2018 are expected to be available from December 2017.
Before you enrol, faculty academic advisors can help you develop a study plan.

Fee calculator
W: feecalculator.app.uq.edu.au

International students: Refer to page 43 for fee information.
Centrelink Student Services

The Australian Government provides three income-support payments for Australian tertiary students: Youth Allowance, Austudy, and ABSTUDY.

You can apply for these payments at any Centrelink Customer Service Centre. Other schemes include:

- Student Start-up Scholarship or Loan
- Relocation Scholarship
- Interest-free advance loan where part of the allowance is paid as a lump-sum advance
- Pensioner Education Supplement (PES)
- Low Income Health Care Card
- Fares Allowance
- Child Care Benefit (CCB) or Rebate, or Jobs, Education and Training (JET) Child Care Fee Assistance.

Other government assistance

HECS-HELP
If you are a domestic student in a Commonwealth-supported place, you may be eligible to receive HECS-HELP.

HECS-HELP is an Australian Government loan scheme. Eligible students may access a HECS-HELP loan to pay their student contribution amounts. You do not have to start repaying your HECS-HELP debt until you earn above a certain income level ($54,869 for the 2016–17 income year). Loan repayments are then taken out of your pay as additional tax. You need to supply your tax file number to apply.

SA-HELP
SA-HELP is a loan scheme that helps you pay for the SSAF. If you use SA-HELP, the amount will be added to your accumulated HELP debt. You can take out a SA-HELP loan even if you do not wish to take out any other HELP loan. You require a tax file number to obtain SA-HELP.

Keeping your costs down

- Investigate the financial support and fee payment options offered by the Australian Government
- Apply now for a tax file number, which you will need to obtain a HELP loan (see ato.gov.au)
- Explore the scholarships on offer (see scholarships.uq.edu.au)
- Enjoy UQ’s low-cost entertainment and activities, and visit their secondhand bookshop (see uqu.com.au)
- Ask UQ’s Student Services about finding accommodation (see accommodation.uq.edu.au)

ADMISSION INFORMATION

You must satisfy prerequisites and have a sufficient entry score (OP or entry rank) to study undergraduate programs at UQ, but there are alternative pathways for entry if you do not meet these requirements.

How to apply
Apply for UQ undergraduate program admission through the Queensland Tertiary Admissions Centre (QTAC).

Check the QTAC Guide or the QTAC website for details on how to apply and what entry requirements you need. Free print copies are given to all current Queensland Year 12 students and some interstate students, or you can buy a copy from QTAC directly.

You may list up to six program preferences, but you will only receive one offer – for your highest preference that you are eligible for. When applying, make sure you place programs in order of personal preference, putting the one you most want to study first, and the one you least desire last.

See the QTAC website for 2017 application deadlines.

There are a range of UQ publications and study area guides available to help you choose the right program for you.

To order a specific publication or guide, visit bit.ly/orderUQguide

Search for your program
• Search in this guide on pages 6-34
• Visit future-students.uq.edu.au

TIP: Check that you have met all academic and other entry requirements and have met any specific program deadlines.

The step-by-step process

STEP 1
Choose

Prospective students
• Apply by visiting qtac.edu.au

Current students at other universities
• Apply by visiting future-students.uq.edu.au/apply

TIP: Prior to applying, check that your home institution will give you credit.

STEP 2
Apply

How to accept your offer
1. Log in by clicking ‘Applicant login’ at qtac.edu.au
2. Select Login and enter your details
3. Select the Accept offer option
4. Accept your offer
5. Go to uq.edu.au/startingatuq and follow the instructions

STEP 3
Accept
Prerequisites

Subject prerequisites are the Queensland Year 12 subjects (or interstate/overseas/tertiary/bridging course equivalents) required for individual programs.

Some programs have additional prerequisites (e.g., auditions or the Undergraduate Medicine and Health Sciences Admission Test (UMAT)).

Entry scores

Entry scores include Overall Positions (OP) and entry ranks. Eligible applicants are selected for admission to a program in order of merit: those with the highest entry score are selected first, and so on until the program quota is filled.

The minimum OP or rank required for entry varies from year to year and is determined once applications have been processed and places allocated. While it is difficult to predict exactly what OP or rank will be needed for entry to a program, you can use the previous year’s cut-offs as a guide.

Special entry programs

If you identify on your QTAC application as being of Aboriginal and/or Torres Strait Islander descent you will be invited to apply via the ATSIS alternative entry scheme for a place at UQ. This option takes into account more than just your OP score: it also considers your work history, personal references and life experience.

If you have experienced financial hardship or other difficult circumstances that have negatively impacted your studies, you may be eligible for special entry to UQ. Contact UQ Admissions for more information.

UQ’s Bonus Rank Scheme gives current Year 12 high school students bonus points towards their entry score for completing certain approved subjects or courses. Contact UQ Admissions for more information.

English language requirements

If you are from a non-English speaking background, you will need to provide evidence of English proficiency. You can do this by passing Queensland Year 12 English (or interstate/international equivalent), or by other means. Visit bit.ly/UQ-eng-prof for more information.

Programs for high school students

UQ’s Enhanced Studies Program (ESP) lets you complete a university course at either St Lucia or Gatton campus during Semester 1 of Year 12. The program is offered free of charge, boosts your tertiary ranking by one point, and you may even receive credit for the course you completed if you subsequently go on to study at UQ: see uq.edu.au/esp

The Young Scholars Program is another opportunity to discover, learn and engage with UQ’s academic community and like-minded students from across Queensland: see uq.edu.au/youngscholars

Other opportunities include the Institute of Modern Languages (IML) summer intensive sessions: see iml.uq.edu.au/highschool.html and a range of faculty workshops and seminars: see uq.edu.au/schools/activities-for-schools

Alternative entry

If you did not complete Year 12, did not achieve a high enough entry score for your preferred program, or are a mature-aged applicant, there are alternative entry pathways to UQ. Contact UQ Admissions for advice.

Improving an entry score (upgrading)

If you are not offered a place in your preferred program and want to improve your entry score or meet subject prerequisites, you can accept an offer in a less competitive program with fewer prerequisites and try to improve your entry score. This is called upgrading.

We recommend you complete one full-time year of bachelor degree study to upgrade to higher demand programs because the entry ranks allocated to study totalling less than one full-time year are capped. Depending on your academic performance your new entry rank could be higher than your previous rank.

For more information on how to improve your entry score, contact UQ Admissions.

How to enrol

1. Access your first year planner available at uq.edu.au/startingatuq to find out what you must study
2. Choose your courses (visit myAdvisor at uq.edu.au/myadvisor for help)
3. Enrol online via mySI-net at sinet.uq.edu.au
4. Plan your timetable and sign-on to classes
5. Pay fees

Preparing for Week 1

- Research your course resources
- Come along to Orientation Week for fun activities and information about your courses
- Get your student ID card
- Attend faculty or school information and welcome sessions
- Get any remaining questions answered before classes start (visit future-students.uq.edu.au/ask)
YOUR FUTURE OPTIONS

When your undergraduate program is complete, you may want to pursue further study, and you will find a range of postgraduate study options to choose from at UQ.

Postgraduate study
UQ offers both coursework programs and research higher degrees (RHD) at postgraduate level.

Both will give you specialised knowledge, provide a significant advantage in the employment market, upgrade your qualifications, enhance your promotion potential, or pave the way for a career in academia.

Postgraduate study
W: uq.edu.au/study

Coursework programs
Postgraduate coursework programs include graduate certificates, graduate diplomas, coursework masters, extended masters and professional doctorates, and require that you complete prescribed courses and assessment. Some programs include a research component, but mostly they comprise lectures, laboratories, tutorials, assignments and examinations.

Graduate certificates, graduate diplomas and masters (by coursework) programs may be studied across a wide range of disciplines either individually or within a suite of programs. Depending on your academic background, you may enter a masters program directly, or be asked to apply for a graduate certificate, before progressing to a graduate diploma or a coursework masters.

Research higher degrees (RHDs)
An RHD involves undertaking a significant research project and producing a thesis. You may also have to undertake some coursework. RHDs include the Master of Philosophy (MPhil), which takes one-and-a-half to two years to complete; the Doctor of Philosophy (PhD), which takes three-and-a-half to four years; and the Doctor of Biotechnology (DBiotech), which takes three years to complete. To be awarded these degrees you must produce either a 40,000-, 50,000- or 80,000-word thesis of original research.

Graduate School
W: uq.edu.au/grad-school

MicroMasters
UQ has joined forces with other leading international universities to offer MicroMasters, a series of courses designed to advance your career and offer a path to an accelerated masters program.

Recognised by industries for real job relevancy, MicroMasters are delivered via the edX platform, a non-profit online learning destination founded by Harvard and MIT.

UQ’s Leadership in Global Development MicroMasters is the first MicroMasters course to be offered by UQ, with more in the pipeline. The MicroMasters is a prerequisite for UQ’s new Master in Leadership in Global Development, commencing in 2018.

Students can also gain credit towards their UQ Master of Business by completing the MITx MicroMasters Credential in Supply Chain Management.

To find out more, visit the edX website.
