Why study with us?

Learn with the best

Our award-winning lecturers have extensive academic and industry expertise and are dedicated to helping you succeed. In addition to class contact time, we offer academic advice, peer-assisted study sessions and employment services to ensure you reach your potential.

Choose business

Challenge yourself and develop the skills to thrive in constantly changing and highly competitive business environments. UQ Business School’s vast network of industry contacts means you can develop practical experience and professional connections through internships at some of the world’s biggest companies. Studying business opens up opportunities for a wide range of change-making careers in the public, private and not-for-profit sectors.

Choose commerce

Commerce graduates have extensive career options in accounting and consulting firms, public and private companies, financial institutions and government in Australia and globally. Throughout your program, you will develop strong technical knowledge and skills in critical evaluation and problem-solving, along with practical application. Broaden your opportunities by taking part in internships, industry placements or international student exchanges while working towards an internationally recognised qualification that will allow you to adapt to, manage and influence the dynamic business world.

Choose economics

Economics graduates are among the most sought after and highest paid in Australia.* Economics develops your analytical, modelling and forecasting skills, and instils an understanding of how society uses the world’s scarce resources. These skills are in high demand by businesses, consultancies, governments and international agencies. Your economics program will equip you for a meaningful career helping to resolve some of the world’s greatest challenges, including business productivity and investment decisions, the allocation of humanitarian aid, complex environmental issues and the ageing population.

Choose law

UQ Law is proud to be the oldest law school in Queensland and one of Australia’s leading research-intensive law schools. While our teaching methods have changed significantly over time, we have retained an emphasis on traditional educational goals and values. We foster a comprehensive and sophisticated understanding of the law that will see you develop practical legal skills, stimulate thoughtful debate – with a focus on ethical and social responsibility – and nurture enthusiasm for the study of law.

Choose tourism

Gain a rewarding international career in tourism, hospitality or event management. Tourism blends core business skills and industry knowledge with valuable practical experience, ensuring you receive a well-rounded education. You will learn to provide solutions to industry-specific challenges, such as sustainability, and create meaningful change in your chosen field. Our graduates pursue careers in event management, food and beverage management, hotel and resort management, consultancy, wholesale and retail travel and tourism marketing.

Get involved

Our active student body and student associations help you get the most out of your program by providing study support, professional development and social networking opportunities.

Wide industry network
Undertake internships in the offices of some of the world’s leading companies, through our vast industry networks.

Dedicated employability team
Our award-winning Business, Economics and Law Student Employability Team (BEL SET) is dedicated to strengthening student employability and career outcomes.

Double up
A dual degree gives you room to move by enhancing your skill set.

"The strong focus on real-life experiences has enhanced my confidence in joining the workforce, and as a female of the 21st century, I believe my program gives me the tools to make a difference in the business world.”

Stephanie Field
Bachelor of Advanced Business (Honours)
As the world around you changes, new and fascinating career opportunities are created every day, and job roles increasingly combine multiple disciplines.

Improve your employment prospects and broaden your skills and knowledge by studying two programs at the same time.

Benefits of dual programs

Save time
Graduate with two bachelor’s degrees in as little as four years—a much shorter time than it would take to study both programs separately.

Strike a balance
Why compromise when you can balance your studies and your sanity by pursuing both your career ambitions and passions? Dual program students appreciate the diversity of topics offered in their two different programs.

28 business, economics and law dual program combinations available

Double your opportunities

A dual program, also called a double degree, will equip you for this evolving job market. It gives you the flexibility to study two different disciplines in a much shorter time, by studying only the mandatory courses for each program with fewer or no electives.

As the world around you changes, new and fascinating career opportunities are created every day, and job roles increasingly combine multiple disciplines.

Improve your employment prospects and broaden your skills and knowledge by studying two programs at the same time.

Are you an international student?

While a lot of information in this guide is relevant to you, certain key information may be different for international students.

You are an international student if you are:

• not a citizen of Australia or New Zealand, or
• not an Australian permanent resident, or
• a temporary resident (visa status) of Australia.

Eligibility for UQ study
For admission into undergraduate programs at UQ, you must have:

• completed secondary studies equivalent to Queensland Year 12 with a score comparable to the Queensland rank specified for your program
• satisfied individual program requirements (e.g. specific subject prerequisites, auditions or interviews)
• satisfied UQ’s English language proficiency requirements.

If you do not meet these criteria, you might consider taking the Foundation Year bridging course offered by International Education Services (IES) or English language training offered by the Institute of Continuing and TESOL Education (ICTE).

Foundation Year bridging course
iescollege.com/foundation-year/home

Institute of Continuing and TESOL Education

Applying to UQ
A UQ degree is a qualification the world will recognise. If you’ve got the ability, commitment and ambition to make the most of UQ, then we want to hear from you.

future-students.uq.edu.au/apply

Study options at UQ
If you would like to know more about your study options at UQ, enquire through our online form, and one of our UQ advisers will respond. You can also register for an advisory session with one of our student advisers. If you are in Brisbane, sign up for a campus tour.

We also have a range of publications, including the international undergraduate and postgraduate student guides, to help you.

"UQ is a great place to make new friends, plus it’s a top-ranking university with high academic standards, clubs to suit every interest and great sporting facilities."

Surbhi Malik
Bachelor of Business Management

Tuition fees
As an international student, you will pay tuition fees, a Student Services and Amenities Fee, and potentially other administrative fees. UQ has program-based tuition fees for coursework award programs, meaning that all courses within a program are charged at the same tuition fee rate per unit for a given academic year. Some programs also have additional costs.

future-students.uq.edu.au/apply/international/tuition-fees

Other expenses
International students applying to study in Australia must have a student visa or an alternative visa that enables them to study full time on campus. Please consider expenses such as visa and medical (pre-departure) fees, tuition fees, general living expenses, return airfares, and Overseas Student Health Cover (OSHC) when you plan your budget.

future-students.uq.edu.au/international/cost-living

UQ has more than 18,000 international students from 135 countries
Independently ranked as one of the top business schools in Australia

Best Global Universities, 2017
UQ Business School

Study with one of Australia’s best business schools.

Top ranked
What sets UQ Business School apart is that we stand for the kind of business that matters: business that creates sustained and positive change in industry and the community. Learn from the most innovative business educators in Australia who will challenge your thinking. You will take in the most up-to-date and relevant theory and apply this knowledge through internships and industry projects.

Academic and industry leaders
Our world-class lecturers are consultants and advisers to leading companies worldwide. The majority of our academic staff members hold PhDs and produce research papers that are cited in the world’s top-tier journals. This expertise ensures our teaching is relevant and informed by the latest research. Our programs cover a broad scope of business disciplines, and our lecturers supervise a diverse range of higher degree by research (HDR) topics.

Push your boundaries
You will have access to industry leaders for real-life projects, as mentors and for internships. Our Community Engagement Program is unique; by participating, you can build your skills working on community sector projects that benefit not-for-profit and charity organisations. Give back to the community while learning.

Careers
The diversity of our programs ensures our graduates are in demand across a wide range of industries within the public, private and not-for-profit sectors. Many of our alumni work in leadership positions in accounting, banking and financial services, consultancy, advertising, event management, marketing, state and federal government, business development, tourism and business information systems.

1st
The first business school in Australia to earn both the European Quality Improvement System (EQUIS) and Association to Advance Collegiate Schools of Business (AACSB) accreditation
Bachelor of Advanced Business (Honours)

The Bachelor of Advanced Business (Honours) (BAdvBus(Hons)) program will support you to become a critical and reflective thinker, capable of identifying, analysing and developing solutions for the complex challenges facing businesses in the 21st century.

Majors

The BAdvBus(Hons) program can be tailored to help you achieve your career goals. You can choose up to three majors from Accounting, Business Analytics*, Business Information Systems, Entrepreneurship and Innovation*, Finance, Human Resources, International Business, and Marketing.

* Exclusive to the BAdvBus(Hons) program

Professional memberships

As a graduate, you may be eligible for memberships with a diverse range of professional bodies:

Why Advanced Business at UQ?

Our four-year honours program is limited to a small, highly motivated and high-achieving cohort aspiring to leadership roles in business, the community or academia.

The courses in this program are designed to make you stand out to employers and are taught by internationally respected industry experts and academics. Our unique capstone course in leadership and ethics will provide an opportunity for you to apply your knowledge and skills to real business cases.

What you will study

You will study a wide range of advanced business courses, providing the most comprehensive set of business management skills of any undergraduate program at UQ.

Learn how to communicate and engage with customers and employees of your organisation; use analytics to understand the dynamic nature of marketplaces; and design, measure and assess financial and business decisions. Identify and capitalise on business opportunities, and manage business internationally and across cultures. These are only a few examples of the many exciting topics our courses cover.

You can select from two pathways:

• The professional pathway allows you to take up to three majors from UQ Business School’s specialist teaching areas (see opposite page for the list of majors).

• The research pathway is offered via a thesis for those who want to enter into a higher degree by research (HDR).

Career opportunities

On graduation, you will have a globally recognised honours degree that will help you stand out in a competitive job market. Within this program, you will also have the opportunity to take part in an industry placement course at a leading organisation in Australia. Alternatively, this program can be used as a stepping stone to further research in industry or academia.

As a graduate, you can expect a career in companies, agencies and organisations across the private and public sectors, both in Australia and internationally. Specific roles depend largely on your majors, but this program provides considerable flexibility depending on your personal career goals.

Honours

Honours is awarded to all graduates of this program in the following classes (based on GPA): Class I, Class IIA, Class IIB, Class IIIA, Class IIIB.

Bachelor of Business Management

Do you have big ambitions for your career in business? The Bachelor of Business Management (BBusMan) teaches all the fundamentals you will need for your future while offering flexible majors to focus your desired career path.

Why Business Management at UQ?
The Bachelor of Business Management will prepare you to be a strategic business leader so you can stay ahead of the game, no matter what the world throws at you.

Our academic staff are leaders in their fields, working to find solutions to some of the world’s most pressing issues. Their research and consulting activities ensure our teaching is at the forefront of contemporary business knowledge.

We firmly believe in providing you with practical experiences to build on your knowledge, including applied projects, real-life case studies, guest lectures by industry experts, and opportunities for placements and internships with leading businesses.

By the time you graduate, you will have the skills to confidently lead people and innovative projects.

What you will study
How do group dynamics affect employee behaviour? How do you manage online advertising and content? How can businesses make a profit while helping communities? How can businesses incorporate sustainability into their planning? You will explore the answers to these questions and more during your business management studies.

This program covers topical and innovative study areas such as entrepreneurship and business information systems. You will discover that business management is future-oriented, allowing you to adapt to rapidly changing business environments.

Career opportunities
This program opens up a wide range of career opportunities in the public, private and not-for-profit sectors. Many of our alumni work in leadership positions across various industries.

Honours
Our honours program provides an opportunity for high achievers to spend an extra year learning in-demand business and research skills. These attributes are highly sought after by employers, giving you a competitive advantage.

Majors
The business management program provides you with a comprehensive foundation for a successful career in business. Compulsory courses in areas such as management, marketing and finance will equip you with necessary core business skills. You will then build on these by choosing one or two (of seven) specialist majors that align with your areas of interest. A major consists of six courses from one area of specialisation. As you work through your chosen majors, you will develop complementary managerial skills.
Advertising
Advertising unleashes a world of opportunities for budding creative professionals. You will be introduced to the foundations of advertising and media, and develop the business, analytical and creative skills necessary to launch an advertising career. Consumer behaviour and media planning and buying are some of the areas in which you will gain skills to become an effective advertising manager. You will also develop a range of hands-on professional skills in the creative design and development of advertising campaigns.

Careers: Graduates enjoy careers in media, advertising agencies, as media buyers, and in the marketing departments of public, private and not-for-profit organisations.

Business Economics
This major equips you with the knowledge and skills to effectively apply economic analysis to business management. It also supports careers in corporate strategy, production management, financial planning, capital budgeting, economics, business analysis, marketing, purchasing, and human resource management. You will learn the economics of growth strategies and how to apply economic analysis to various scenarios.

Careers: Graduates enjoy careers in banking and financial services, consultancies and government departments.

Business Information Systems
Discover the relationship between business and technology, and the crucial role information systems play in high-performing organisations. You will develop skills in data analytics, analysis of organisational information requirements, business information security, process improvement and digital business. This foundation of knowledge will allow you to make recommendations about the use of technology and systems in organisations to achieve a competitive advantage.

"The best thing about my program is that it is taught by experts in the industry – people who are engaging and incredibly knowledgeable in their fields."

Timothy De Haast
Bachelor of Engineering (Honours) / Bachelor of Business Management
Careers: Graduates enjoy a wide range of careers in consulting, data infrastructure, online marketing services, data analytics, public sector departments and technology agencies.

Human Resources
Studying human resources (HR) provides you with the skills and experience to create positive work environments and assist people to achieve their own career aspirations. You will gain knowledge and skills in areas such as people management, Australian and international industrial relations, selection and recruitment, organisational change, interpersonal communication, conflict resolution, training and development, negotiating employment agreements, and leadership.

Careers: Graduates enjoy careers as professional HR managers in public or private sector roles, for example, in professional practices, trade unions, employer associations, government departments, management consultancies, government departments, management consultancies, industrial relations, negotiation and advocacy, and occupational health and safety.

International Business
Businesses competing internationally must build relationships with customers, adapt their products to international markets, and manage the diverse logistical and supply channels of various countries. You will learn how cultural, regulatory and operational conditions influence the strategies necessary to succeed in global markets. You will also gain an understanding of key issues in international trade and investment, international marketing, international human resource management, and operations in firms engaged in international business, finance and strategy.

Careers: Graduates enjoy careers in marketing consultancies, market research, and the marketing departments of public, private and not-for-profit organisations.

Real Estate and Development
This major examines the theoretical and practical knowledge required to operate as a property professional. You will develop your knowledge of business and land economic principles. During your studies, you will learn about the principles of property law, finance and investment, asset management, town planning and property valuations. You will apply advanced software and computer programs to solve business problems related to land development and management.

Careers: Graduates enjoy careers in property investment, development, management and valuation.

Bachelor of Commerce

The Bachelor of Commerce (BCom) will equip you with the fundamental knowledge, a strong commercial focus and the necessary skills for a career in accounting, financial management, banking, business analysis, business information systems and management.

Why Commerce at UQ?

UQ Business School commerce graduates are in high demand. We are well regarded for our commerce program and are currently ranked 38th in the world for accounting and finance. By choosing to study the commerce program, you will develop a combination of core commerce skills, specialist knowledge, and critical evaluation and problem-solving abilities. Your expertise will ensure you are sought by employers and add value to a business within a rapidly changing world.

What you will study

How can business performance be measured and assessed? What aspects of performance can be improved and how? How can company, project and investment value be determined to make buy/sell decisions? How do foreign markets, derivatives and debt markets affect my client’s portfolio? What is an auditor’s responsibility? How can big data be analysed to add value? What issues arise from operating in a virtual corporate environment? You will investigate these topics and more as you study our commerce program.

After examining the fundamental principles of commerce, you will learn how you can apply and adapt them in response to specific challenges faced by businesses. You will build specialised knowledge and skills through one or two majors as you progress through years 2 and 3 of your program.

If you are seeking an in-depth understanding of how accounting, business information systems and finance add value to business and the global economy, then this program is for you.

Career opportunities

This program will set you up for a thriving career in the public or private sectors in accounting, banking, financial management, business analysis, business information systems and general management.

Honours

Our honours program is a challenging and rewarding additional year of study. As an honours student, you will hone your business and finance knowledge and skills through research and advanced coursework. Honours is a small-intake program, admitting only the top students from the Bachelor of Commerce.

Professional memberships

As a graduate, you may be eligible for memberships with a diverse range of professional bodies:
"Studying a dual commerce/law program allows me to satisfy my intellectual hunger, and the diverse range of subjects offered provides me with a brilliant background, no matter what career path I choose. The varying subject matters and worldviews that I've been exposed to have been refreshing, and allowed me to develop a new outlook."

Julius Moller

Careers: Graduates enjoy careers as accountants in public and private corporations, management and consulting firms, small business, banks and other financial institutions, government and government-owned corporations, and not-for-profit organisations.

Business Information Systems
Discover the relationship between business and technology, and the crucial role information systems play in high-performing organisations. You will develop skills in data analytics, analysis of business information requirements and security, process improvement and digital business. This broad foundation will allow you to make recommendations about the use of technology and systems in organisations to achieve a competitive advantage.

Careers: Graduates enjoy a wide range of careers in consulting, data infrastructure, online services / marketing, data analytics, public sector departments and technology agencies.

Careers: Graduates enjoy careers as accountants in public and private corporations, management and consulting firms, small business, banks and other financial institutions, government and government-owned corporations, and not-for-profit organisations.

Finance
Finance is a dynamic field that will afford you a vast range of opportunities both locally and internationally. You will build your financial acumen by combining core knowledge of valuation, risk management, corporate finance and banking with practical application through case studies and simulations. This will place you at the forefront of career opportunities in financial and portfolio management, corporate finance, risk assessment, and business analysis.

Careers: Graduates enjoy careers in finance, banking, stockbroking, management consulting, corporate financial management and government agencies.

1. This course must be studied by students wishing to obtain CAANZ accreditation and is recommended but not required for CPA accreditation. Students who do not complete the course will be required to undertake it as part of their CPA study.
2. This course must be studied by students wishing to obtain CAANZ and CPA accreditation.
Bachelor of International Hotel and Tourism Management

The Bachelor of International Hotel and Tourism Management (BIHTM) will open up exciting career opportunities for you in the global tourism industry. This program will prepare you for a successful professional and managerial career in tourism, hospitality or events.

Why International Hotel and Tourism Management at UQ?

UQ Business School is internationally recognised for its tourism programs and is the only Australian university business school to offer programs with UNWTO TedQual* certification.

The BIHTM program blends cutting-edge research and theory with practical exercises to develop your managerial abilities and business acumen. Our lecturers have strong industry and research experience, integrating their expertise into their teaching.

A special feature of this program is its Work Integrated Learning (WIL) component. Through WIL, you will have access to hands-on opportunities including individual placements, executive shadowing positions, wine immersion programs, Disney World internships, and domestic and international study tours.

* United Nations World Tourism Organization Tourism Education Qualification

What you will study

How can we promote tourism and ensure the sustainability of natural resources? How can social media impact the way we travel? What effects will the world’s growing population have on tourism?

You will examine all of these issues and more as part of the BIHTM program. You will have opportunities to develop, promote and deliver events; design and market tourist facilities and attractions; and engage in and evaluate hospitality encounters. Contemporary issues such as sustainability, innovation and customer service will be explored at local, regional and global levels. You will learn to develop solutions to current and future industry challenges, creating change wherever you go.

Career opportunities

Thanks to your advanced management training and impressive professional networks, you will be well positioned for a promising career in the tourism, hospitality or events industries. Our graduates are in high demand with employers, both locally and internationally.

Honours

This program functions as an extra year of high-quality study, showing employers you have what it takes to excel in the tourism, hospitality or events industries. The high-level research skills you develop will open up further opportunities for you in industry, or they could lead to a higher degree by research (HDR) program.
“Looking back, the most valuable thing I learned throughout my studies at UQ is to trust myself and my abilities, to embrace opportunities and take charge of my own learning. My study experience was exceptional, and I thoroughly enjoyed learning from highly experienced leaders in the industry.”

Janita Zhang
Bachelor of International Hotel and Tourism Management

Janita currently works at The American Chamber of Commerce in Australia in the role of Event Manager QLD and Digital Communications Design Lead (National).
The only Australian university to offer programs with UNWTO TedQual* certification

Majors

Develop in-depth skills and practical experience by choosing majors relevant to your desired career. You can specialise in one or two areas that align with your interests. A major consists of six courses from one area of specialisation.

Event Management

Event management is an exciting and growing industry. You will gain an understanding of the nature, characteristics and role of events, and specialist knowledge in all aspects of event management. You will learn about the history and impact of festivals, and study event operations for business, artistic, cultural and sporting events. You will also develop managerial and entrepreneurial capabilities in marketing, sponsorship and fundraising for events.

Careers: Graduates enjoy careers as event and festival managers, consultants, conference and convention centre managers, and in various roles in public and private tourism organisations.

Hospitality Management

As the hospitality industry shifts from a skills-based to a knowledge-based industry, higher learning has become critical for career success. This major focuses on the vibrant global hospitality industry, which includes hotel, restaurant and resort management. You will develop an understanding of, and skills in, the essence of ‘hospitality’, the international hotel industry, technological applications in hospitality management and large-scale services management, small business and entrepreneurship, casinos and gaming, and food and beverage management.

Careers: Graduates enjoy careers in management and marketing roles in hotels, resorts, casinos, restaurants, cruise liners, commercial catering and clubs.

Tourism Management

Tourism is one of the most important industries in Australia. This area of study covers tourism operations, destination marketing and policy. You will develop managerial expertise in issues relating to sustainability, ecotourism, policy and planning, visitor behaviour, and the environmental, social and economic impacts of tourism. You will be at the forefront of current and future trends and issues for the industry, including niche markets. Case studies and site visits provide practical and relevant skills and knowledge to ensure your success upon graduation.

Careers: Graduates enjoy careers in tourism organisations, tourism and hotel consultancies, and other tourism-related industries including wholesale and retail travel, airlines and the cruise industry.
2nd top economics research institute in Australia
RePEc December 2018

#3 in the world for research into efficiency and productivity
RePEc December 2018
School of Economics

Study with one of the largest and most influential economics schools in Australia.

Highly ranked

UQ’s School of Economics is consistently ranked in the top five per cent of research-intensive economics departments in the world.* Our world-class academic staff and diverse courses will equip you with theoretical knowledge to address real-life problems.

Economics provides meaningful solutions to many of the big issues facing our world, such as climate change, the ageing population, complex international trade negotiations and assisting economies to be competitive in an increasingly globalised context.

* Research Papers in Economics (RePEc)

Push your boundaries

Our stimulating academic environment attracts the brightest and best economics students from around the country and internationally. You will be encouraged to be part of the rigorous debates that challenge and extend conventional economic thought.

Academic and industry leaders

Our accomplished scholars claim a large share of Australia’s economics honours, competitive research grants, prestigious fellowships and high-quality publications. We are home to more than 70 active teaching and research staff, including specialists in energy and climate change, productivity and efficiency analysis, development economics, and labour and agricultural economics.

Careers

Economics graduates are highly sought after and among the highest paid in Australia.** They work as economists in consultancies, financial services firms and global corporations, as well as for government and international agencies including the Reserve Bank of Australia, the World Bank, the International Monetary Fund, and federal and state treasuries.

Training in economics teaches you to analyse and make decisions – skills that are in demand in most professions, which is why economics is one of the most popular combinations in dual degrees.

** Graduate Destination Survey 2016

---

Nobel Prize Laureate in Economics (1994) for Game Theory, John C Harsanyi (1920-2000), launched his academic career as an economics lecturer at UQ.
Bachelor of Advanced Finance and Economics (Honours)

The Bachelor of Advanced Finance and Economics (Honours) (BAdvFin&Econ(Hons)) is your passport to becoming a leader in the fields of finance and economics.

Why Advanced Finance and Economics at UQ?

This program closely integrates the disciplines of economics and finance and allows you to focus on core areas at a high level. Courses and activities that are exclusive to the program ensure you will forge lifelong personal and professional connections with your cohort.

Working with our world-class academic staff will help you establish strong links with leading employers. You may also have the opportunity to study a semester abroad at one of our prominent international partner universities.

What you will study

What are the economic and social outcomes of policy changes? What effect has the global financial crisis had on macroeconomic theory and monetary policy? Which financial issues confront most companies? Explore these issues and more in this interdisciplinary program jointly taught by UQ Business School and the School of Economics.

You will develop the analytical rigour and technical knowledge to be an economist in a variety of public and private sector careers or a leader in finance, investment banking, capital markets, equity or venture capital.

At the end of your third year, you will choose to major in either economics or finance, or complete a more general pathway and undertake a range of elective courses and a team project.

Career opportunities

Potential career pathways include investment banking, funds management, management and financial consulting, stockbroking, international finance and trade or employment with a government agency such as the Reserve Bank of Australia. You may also go on to study for a higher degree by research (HDR).

Honours

Honours is awarded to all graduates of this program in the following classes (based on GPA) Class I, Class IIA, Class IIB, Class IIIA, Class IIIB.

Majors

You can develop greater depth of knowledge by undertaking a major that is relevant to your desired career. A major consists of courses from one area of specialisation to provide additional depth to the discipline. Undertaking a major may lead to further study in the discipline through a higher degree by research, such as a PhD.

Economics

In this major, you will take advanced courses in theoretical and applied economics and undertake a substantial piece of research in a chosen area of your interest.

Careers: Graduates enjoy careers as analysts, advisers and economists in the public and private sectors in fields including business, finance, international development, management or research.

Finance

In this major, you will take advanced courses in theoretical and/or applied finance and have the opportunity to undertake a substantial piece of research in a chosen area of your interest.
“The high calibre of lecturers and tutors across all courses has allowed me to develop strong academic foundations across finance and economics, which I believe will set me up extremely well for postgraduate study and a future career in either field.”

Josephine Auer
Bachelor of Advanced Finance and Economics (Honours)
Bachelor of Economics

As a Bachelor of Economics (BEcon) student, you will learn how people and organisations make decisions about using our scarce resources. Economics will train you to question, analyse, model and predict human behaviour – skills that are highly desirable in the workplace.

Why Economics at UQ?
UQ is the only institution in Queensland, and one of a select few in Australia, to offer the Bachelor of Economics. The School of Economics is Queensland’s largest, most experienced and influential economics school, with more than 70 teaching and research staff. Our School’s research-intensive focus ensures content is engaging and relevant for graduates today and into the future. If you choose to study here, you will develop a range of statistical and analytical tools that you can use to solve pivotal policy and decision-making challenges for business and government.

What you will study
What does it mean if the Reserve Bank of Australia reduces the cash rate? How can economies protect themselves against climate change? What are the benefits of free trade, and do economic sanctions work? How can the government encourage innovation? These are just some of the questions that a Bachelor of Economics at UQ will help you answer.

Initially, you will develop core economic skills through a set of compulsory courses. You will then be able to tailor the program to your interests by choosing from more than 40 elective courses in areas such as econometrics, financial markets, international trade and development, and the economics of business, health, labour, resources and the environment.

Career opportunities
Economics graduates are in high demand by employers. You could work as an analyst, adviser, consultant, economist or researcher in a range of fields including international consulting, infrastructure development and planning, environmental management, international finance, investment and trade, natural resource and agricultural economics, public health, treasury and statistics.

Honours
Our honours program is an extra year of intensive study for high-achieving students within a small-group learning environment. Honours will equip you with an advanced set of economics and research tools that will prove valuable as an economist or in a higher degree by research (HDR) program.

Majors
You can develop greater depth of knowledge by undertaking a major in an area that is relevant to your desired career, or choose a mix of courses from across five majors.

Business and Industry
If you want the challenges of a fast-paced business career, this major is for you. Enhance your economic decision-making capabilities and learn how to apply them in the business sector, working to improve an enterprise’s competitiveness and efficiency. Courses cover issues such as managerial economics, industrial and labour economics and the regulatory environment. You will develop critical thinking and comprehension skills, applicable to businesses across all sectors and industries.

Careers: Graduates enjoy careers within industry bodies, government departments, consultancies and private enterprise.

Careers: Graduates enjoy careers within industry bodies, government departments, consultancies and private enterprise.
"In the first 18 months since graduating from UQ, I have made use of many in-depth skills from my university learnings regularly in my work."

Dominic Byrne
Bachelor of Economics / Bachelor of Commerce

Dominic now works at Synergies Economic Consulting as a Senior Consultant. Synergies offers flexible work arrangements, which has enabled him to continue tutoring economics at UQ and mentoring students through the Aboriginal and Torres Strait Islander Studies (ATSIS) unit.
Economics and Public Policy
In this multidisciplinary major, you will learn how governments develop public policy and how government intervention can influence economies in an increasingly interconnected world. You will be taught the tools, concepts and techniques to provide advice on policy development (such as taxation, education, health and transport), as well as to evaluate existing policies. Core courses in public finance and regulatory economics emphasise the theoretical framework and rationale for government intervention. Elective courses include advanced microeconomics, macroeconomics and political sciences.

Careers: Graduates enjoy careers in public policy, government bodies, not-for-profits, private enterprise and politics.

International Trade and Finance
International trade and finance are key factors affecting the Australian and world economies. This major focuses on the economics of financial systems and mechanisms and emerging issues in today’s globalised economy. You will develop an understanding of the complex nature of economics in the international environment and its close relationship with financial management institutions. You will also gain the analytical skills for informing managerial and policy responses across business and government on international trade and finance issues.

Careers: Graduates enjoy careers in financial institutions, government agencies, consulting firms, and Australian and international private enterprises.

Natural Resources and Environment
Today, the economic and ecological value of our diverse natural resources is recognised at the international, national and local levels. The effective use of these resources is an important social and political issue. This major will give you the economic analytical tools needed to solve key environmental problems, including the management of renewable and non-renewable natural resources (e.g. river systems, agricultural land, energy and minerals). You will understand and be equipped to deal with the challenges facing business, government and the wider community.

Careers: Graduates enjoy careers in public policy, environmentally focused agencies, private enterprise, mining and energy companies.

Quantitative Methods
In this major, you will learn how to provide rigorous, evidence-based economic analysis that is verifiable and objective. It has a strong mathematical focus, covering measurement, analysis, projection and modelling for a diverse set of economic factors and scenarios. This area of economics is developing quickly and is becoming increasingly sought after by employers because it can provide real, data-informed answers to difficult questions, allowing for better decision-making by governments and businesses. You can select courses in the areas of econometrics, advanced mathematical economics, business and economic decision techniques, and experimental economics.

Careers: Graduates enjoy careers in high-level finance and investment, research consultancies, management organisations, private business and government orientated enterprises.

Bachelor of Politics, Philosophy and Economics (Honours)

The Bachelor of Politics, Philosophy and Economics (Honours) (BPPE(Hons)) program combines rigorous cross-disciplinary training and explores global policy challenges to help you pursue a leadership career in business, politics, the NGO sector or academia.

Why Politics, Philosophy and Economics at UQ?
UQ has joined with a distinguished group of world-leading universities offering a Bachelor of Politics, Philosophy and Economics (Honours). We are the only university in Queensland to offer the program, and one of only a handful in Australia.

This cross-disciplinary program combines courses from the Faculty of Business, Economics and Law and the Faculty of Humanities and Social Sciences.

Our schools are home to internationally renowned scholars. School of Economics academics claim a disproportionate share of Australia’s economics honours, competitive research grants and fellowships. The School of Political Science and International Studies is one of the world’s leading centres for the study of national and global politics, and it received the maximum score of 5 in the 2015 Excellence in Research for Australia (ERA) assessment.

What you will study
You will study together as a cohort of highly motivated and high-achieving PPE specialists, drawing on a historical, social, political and economic knowledge base to examine current and future global challenges and the world’s most pressing problems.

Career opportunities
With your finely tuned research, analytical, critical reasoning and problem-solving abilities, you will be extremely employable in analytical and decision-making positions in the public, private and not-for-profit sectors, as an economic or social analyst, policymaker, public commentator, political adviser, or as a leader in international affairs or the diplomatic services.

You will also be well prepared for postgraduate study. You may choose to further your research ambitions by enrolling in a Master of Philosophy or PhD program, where you will continue to develop your skills and make significant contributions to knowledge.

Honours
Honours is awarded to all graduates of this program in the following classes (based on GPA): Class I, Class IIA, Class IIB, Class IIIA, Class IIIB.

Majors
You can develop greater depth of knowledge by undertaking a major in an area that is relevant to your desired career. From year two, you may choose to specialise in one particular discipline, earning a major in either politics, philosophy or economics.

Politics
As a student in this major, you will study the interactions of state and market in great detail through case studies of particular policies and institutions, and at a more general level through theories of governance and politics.

Careers: Graduates enjoy careers in policy-making areas such as government, the public and not-for-profit sectors, and business.

The study of philosophy will introduce you to key ideas in a range of areas of inquiry including epistemology, ethics, logic, metaphysics, the history of philosophy and the philosophy of disciplines such as art, science, education and politics. You will receive intellectual training in the critical evaluation of theories and arguments, and learn how to construct arguments and communicate ideas in a clear and powerful way. You will also acquire advanced analytical reasoning skills and general problem-solving abilities. In addition, philosophy will help you develop sound methods of research and analysis that can be applied in your other courses.

Careers: Graduates enjoy careers in fields including diplomatic and foreign affairs, the arts, financial services, business, law, public policy, social science, teaching and academia.

The study of economics is central to the understanding of business, markets, trade, government policies, international issues, globalisation, health, development and the environment. You will undertake advanced-level coursework in microeconomics or macroeconomics, including relevant study of econometrics.

Careers: Graduates enjoy careers as analysts, advisers or economists in the public and private sectors in fields including business, finance, international development, management or research.

Ensure that the courses you select are appropriate for your program requirements and rules. Refer to the program plans at bel.uq.edu.au/program-plans.

Linden Peacock
Bachelor of Laws (Honours)

Linden volunteered with the One Woman Project, a youth-led not-for-profit founded by UQ Arts/Law alumnus Madeline Price that focuses on educating the community on gender equality. After spending 18 months mentoring high school students on the project, Linden was appointed as the organisation’s National Director of People and Culture. Linden is also the Queensland Human Resources Director for UN Youth Australia.
UQ Law School

Study at one of the most prestigious and respected law schools in Australia.

Premier legal education

UQ Law is a leading Australian law school with an illustrious history. Refurbished in 2016, our School boasts world-class, state-of-the-art facilities including one of Queensland’s largest law libraries and the Sir Harry Gibbs Moot Court. We offer a premier legal education through small-group teaching complemented by a comprehensive co-curricular program.

Academic and industry leaders

Our staff bring a wealth of practical expertise, along with qualifications from leading institutions across the world. They are talented and committed researchers and educators who are recognised for their teaching excellence both nationally and internationally. You will benefit from additional teaching and research expertise delivered by visiting academics, professionals and adjunct professors.

Push your boundaries

Our expanding international outlook combines innovative research with advanced teaching and learning. Our collaborative learning environment will challenge and stimulate you to develop a comprehensive understanding of the law while cultivating excellence in critical reasoning and lateral thinking.

Careers

Since welcoming our first students in 1936, we have earned a distinguished reputation as Queensland’s leading provider of legal education, producing highly sought-after graduates. UQ Law attracts the best and brightest students from Australia and abroad through its competitive entry requirements. We cultivate exceptional legal thinkers and leaders who use their discipline, ingenuity and initiative to change and enrich the world.

Ranked as the 36th best law school in the world

QS World University Rankings by Subject 2018
Learning beyond the classroom

UQ Law School has fostered strong working relationships with the community and the legal fraternity. Through these relationships, our students influence the law and its institutions for the benefit of society.

The UQ Pro Bono Centre

Since 2009, the UQ Pro Bono Centre has fostered students’ participation in providing legal assistance and support for pro bono and public interest work. The Centre partners with private law firms, barristers, community legal centres and non-government organisations.

By applying your classroom learning to real-life situations, you will make important contributions to unmet legal needs in your community, all before graduation.

law.uq.edu.au/uq-pro-bono-centre

Clinical Legal Education

Gain valuable work experience for academic credit in a social justice setting through the elective law course LAWS5180. Students undertake legal work under the close supervision of experienced lawyers.

Pro Bono Roster

The Centre’s Pro Bono Roster provides volunteer opportunities within the legal fraternity and community organisations, where you can choose your time commitment and your preferred method of support in pro bono and public interest work.

The Manning St Project

The Manning St Project allows you to pursue an interest in policy, advocacy and law reform, public interest research or community legal education. You will work under the supervision of practising lawyers and academics at Caxton Legal Centre in South Brisbane.

Law Outreach and Education Program

You can be involved in one of the outreach community legal education programs offered by the UQ Pro Bono Centre:
- Asylum and Refugee Law
- Domestic Violence and the Law
- Everyday Law
- International Humanitarian Law (run in conjunction with the Australian Red Cross).

You will liaise with and deliver lessons and seminars to the community, including high school students in the greater Brisbane area.

Co-curricular Education Program

In partnership with the UQ Law Alumni Association, the co-curricular education program complements core areas of study to give you a real-world understanding of how the concepts you are studying manifest in legal practice.

All first-year students have the opportunity to participate in an immersion day at the Supreme Court that includes a guided tour, observation of a trial and presentations by eminent legal professionals.

Olivia Duce, a 5th-year dual degree BEcon / LLB(Hons) is a Member of the Pro Bono Centre Student Advisory Panel and has contributed to various group projects including DV Connect ‘Pets in Crisis Program’, the online Deaths in Custody database and the Pro Bono Centre’s new law outreach and education program, ”Everyday Law”, which launches in 2019.

Olivia Duce
Bachelor of Economics / Bachelor of Laws (Honours)
Internships and work experience

You will have opportunities to gain valuable work experience by undertaking an internship. Prospective employers value work experience, and interning is a great way for you to develop your skills and enhance your CV.

The Barristers Work Experience Program

An initiative of the Bar Association of Queensland and The University of Queensland Law Society, this is an immersive work experience placement with a participating barrister. You will undertake legal research and shadow a barrister to court and meetings. The program aims to develop your legal skills and provide you with first-hand insight into a career at the bar.

The Aurora Native Title Internship Program

This program places Australian law students with Native Title Representative Bodies (NTRB) and other Indigenous organisations. Typical duties include preparing briefs for counsel and government submissions, conducting legal research, preparing affidavits, and attending court with NTRB staff.

The Office of the Director of Public Prosecutions (ODPP) Work Experience Placement Program

Aimed at law students with a genuine interest in criminal law, this program will give you exposure to a variety of criminal law matters and will develop your knowledge of the criminal justice system.

Environmental Sustainability and the Law

As part of LAWSS233 (Transnational Perspectives in Law), students travel to Malaysian Borneo for a hands-on opportunity to make a real contribution to environmental justice while being involved in a remarkable experience of living and working in Asia.

Thailand International Legal Studies Externship

The BABSEACLE Externship Clinic takes place during the winter break in Chiang Mai, Thailand. Students undertake activities supporting legal research related to access to counsel and legal service providers for vulnerable and marginalised persons and communities.

Research and publication

You will be encouraged to engage in in-depth research on contemporary legal issues and be supported in your efforts to have your research published. You will have opportunities to work closely with leading academics across a variety of areas through research-intensive course options and our Summer Scholars Program.
Combine your interests: dual law programs

Improve your employment prospects and broaden your skills and knowledge by studying laws and a second program at the same time.

* Minimum (adjusted) selection threshold 2019 is the minimum score that was considered for an offer of a place to all applicants.
* Lowest OP/Rank to receive an offer refers to all recent secondary students who were offered a place in 2019.
* Not all applicants on this OP/Rank gained entry; finer discrimination within the OP/Rank was used.
* OP Guarantee does not apply to these programs.

6 law dual program combinations available

Broaden your skills

A dual degree will equip you with the skills and self-confidence to effectively manage a wide range of competitive industry environments. Many students have complemented their legal studies with a Bachelor of Arts, placing them at the centre of the contemporary information society and economy via skills in criminology, economics, public policy, sociology and writing.

Study Law and IT together with the Business Management / Laws (Honours), Commerce / Laws (Honours) or Science / Laws (Honours) dual programs to graduate with qualifications in computer science or business information systems and law.

Get an edge

As a dual program graduate you will have a competitive advantage with employers, and you will broaden your prospective employment to a wider range of industries.

Learn from the best

By studying in two disciplines, you will benefit from exposure to a more diverse range of UQ’s outstanding teachers and researchers.
Mooting

Mooting competitions are mock legal hearings in which legal or factual arguments are presented in a hypothetical case before a judge, tribunal member or arbitrator.

You can participate in a wide range of mooting competitions to help you develop legal knowledge, research and communication skills. These competitions are both internal and external, and they cover issues ranging from commercial disputes to human rights claims.

Coached by academic staff and alumni, UQ’s moot teams have achieved tremendous success in local, national and international mooting competitions year after year. Our team was crowned World Champions of the 2018 Philip C. Jessup International Law Moot Court Competition in Washington DC, USA out of an impressive 600 competing teams. This is the third time UQ has won this prestigious competition, which is the world’s oldest and largest international moot competition.

In 2018, UQ also triumphed at the International Maritime Law Arbitration Moot Competition, winning it for the fifth time. We also won our second title in the Aboriginal and Torres Strait Islander Students’ Moot. Through generous donations from our alumni and other donors, students receive the financial support necessary to take part in these transformative learning experiences.
Bachelor of Laws (Honours)

The Bachelor of Laws (Honours) (LLB(Hons)) prepares you for success in the legal profession. Distinguished by rigour, depth and conceptual sophistication, you will develop knowledge and skills that can be used to shape societies, governments and, ultimately, the world.

International recognition

The LLB(Hons) fulfils the academic requirements for admission as a legal practitioner throughout Australia. Students from Singapore, Malaysia or India may use the LLB(Hons) to fulfil the academic qualifications required for admission to the legal profession in their home country. Once admitted in Australia, international students may need to complete only limited conversion modules to be eligible for admission in their home country.

Why Law at UQ?

Our courses are taught in small-group settings and informal learning spaces within the Forgan Smith Building, which has been refurbished specifically for law students. You will have the opportunity to expand your knowledge with your peers and professors in an active learning environment.

The LLB(Hons) program offers a thorough understanding of the concepts, principles, policies and values of the law, both in Australia and other jurisdictions. It strives to develop outstanding skills in critical, rational and analytical thinking, and will teach you to craft clear and persuasive arguments – skills that will be valuable in whatever career path you choose.

You will graduate with an internationally respected honours qualification, with advanced knowledge and skills that are transferable across a wide range of careers. Your degree will set you apart in a competitive job market while also providing a pathway to future research or learning.

In addition to the courses required for professional admission, the LLB(Hons) offers a range of elective courses and exclusive co-curricular activities through which you can put the knowledge you have acquired in the classroom into practice.

Career opportunities

Legal practitioners

After completing an LLB(Hons) from UQ, you must also satisfy the practical legal training requirements before you can be admitted as a legal practitioner. Examples of career opportunities include:

- **Solicitor**
  Solicitors (as sole practitioners or in law firms) are usually the first point of contact for members of the public seeking legal advice. Solicitors are also employed by businesses, government and community and international bodies to provide legal advice, prepare legal documents, develop policy and advise on legal reform issues.

- **Barrister**
  Barristers represent their clients’ interests in court proceedings as specialist advocates. Usually they work independently and choose to specialise in particular areas of the law. They also provide oral or written advice on matters within those areas.
"As a new student, you step into a world where a lot is expected of you. However, you are supported throughout the journey and complete your program with a level of confidence, believing that the challenges that exist in the real world are now more manageable due to the knowledge and skills acquired at UQ."

Milan Gandhi
Bachelor of Laws

Milan was the Law Student of the Year at the 2017 Lawyers Weekly Australian Law Awards and currently works at McCullough Robertson in Brisbane. Milan is also the founder of The Legal Forecast, a not-for-profit think tank that aims to advance legal practice through technology and innovation.

**Important**

Ensure that the courses you select are appropriate for your program requirements and rules. Refer to the program plans at bel.uq.edu.au/program-plans. For a full list of courses and electives, visit uq.edu.au/study. Note: courses are subject to change; and not all courses are offered every year. To be eligible to join professional bodies, you may be required to complete certain courses.

**Industry**

In addition to being a prerequisite for legal practice, the analytical and research skills you develop in the LLB(Hons) program will help you secure a career in many other sectors, including:

- **Government**
  Law graduates work in various sectors of state and federal government. They can work as legal officers within government departments or may be involved in developing or administering government policy. They may also embark on a career in the diplomatic and foreign service.

- **Corporate**
  Many law graduates work as in-house lawyers for large companies where they undertake work in a wide variety of areas such as corporate governance, insurance, environmental compliance and employment law.

- **Business**
  Using their law program – often combined with a business management, commerce or economics program – many graduates undertake careers in the business world in areas such as investment banking, insurance, property development and management. Others pursue careers in the consulting or advisory services industry, working to provide solutions to a wide range of clients.

- **Community support and social development**
  Graduates can use their law program, combined with any other program, to work for industry associations, lobby and environmental groups, social service groups, ‘think tanks’, community service organisations, legal aid and community legal centres.

**Academia**

Law graduates are well equipped to pursue careers in academia. Those with a passion for research and teaching can pursue further study and seek positions where they can contribute to legal scholarship while educating the next generation of legal practitioners.

**Honours**

Honours is awarded to all graduates of this program in the following classes (based on GPA): Class I, Class IIA, Class IIB, Class IIIA, Class IIIB.

Set your career in motion

The award-winning Business, Economics and Law Student Employability Team (BEL SET) is dedicated to helping you access opportunities, increase your employability and manage your career.
We recommend you start developing your employability skills and building your personal and professional profiles as soon as you start at UQ. You will expand your career options and gain several years of practice and experience to include in your CV when you graduate.

Through the award-winning BEL SET programs, you will learn and apply employability skills that will help you stand out from the crowd in a highly competitive job market.

We partner with external employers, alumni, businesses, government, and community organisations to connect you with work opportunities and to promote industry awareness and engagement.

Access BEL SET’s tailored programs and services at every stage of your studies – as an undergraduate or postgraduate student, as well as for six months after graduation.

**Pre-degree:**

**Get SET**

Discover the programs and services available to you as a UQ BEL student, including:

- information about careers and job sectors to help you decide on a career path
- hands-on experience working on real industry projects with the not-for-profit sector
- individual consultations including guidance about career options and mock interview sessions
- workshops to equip you with the skills and attributes to be work-ready
- networking events and opportunities to connect with industry
- work experience and internships
- UQ StudentHub – an online careers portal where you can access details of job vacancies and internships
- information on closing dates for graduate applications with major Australian employers
- UQ Employability programs, UQ Careers Service, Going Global and Global Grad.

**Early degree:**

**SET in motion**

Participate in a series of programs and workshops designed to SET you up with insight into career options and employability skills:

- Consult with BEL SET to create your Career Attainment Plan.
- Create a CV and LinkedIn profile.
- Seek part-time work.
- Get involved in voluntary work and on-campus activities.
- Review the online career insight resources on the BEL SET StudentHub site.

**World of Work event series**

These events give you the opportunity to network with young professionals about their careers and experiences transitioning to work after graduation. Aimed at first- and second-year students, these sessions give you an insight into what it would be like to do their job, helping you explore possible career options in different industries.

**The Business, Economics and Law Student Employability Team is the proud winner of the employability category in the prestigious Australian Financial Review’s 2016 Higher Education Awards**
Mid-degree:
SET the bar high
• Book a consultation with BEL SET for help with internship applications.
• Apply for internships and vocational work-integrated learning programs.
• Take part in the Community Engagement Program (CEP) and seek voluntary work opportunities.
• Attend the interactive Career Success Program workshops.
• Participate in networking events.
• Take part in work-shadowing and workplace cultural excursions.
• Apply for the Student Work Experience Program (SWEP).

Community Engagement Program (CEP)
Make a positive impact and create change in the community by applying your classroom knowledge to projects in the not-for-profit sector. The program will challenge you to develop your leadership capability and enable you to demonstrate your business-planning, strategic and teamwork skills. CEP is an opportunity for you to grow your network, gain valuable employability skills and build your personal and professional profile.

Student Work Experience Program (SWEP)
This mock recruitment and work experience program for mid-degree students provides the opportunity to practise participating in a competitive assessment centre recruitment process, similar to those used by large organisations. Successful candidates will secure professional unpaid work experience for two to three weeks during the end-of-semester-break.

Penultimate and final year:
SET for success
Recruitment for graduate roles often starts a year before graduation. BEL SET can help ensure you are prepared:
• Become a mentee in our BEL Career Mentoring Program.
• Attend employer-led workshops for help with applications.
• Have an individual consultation focused on applications and mock interviews.
• Attend professional networking events.
• Get inspired at The Edge Leadership Series events.

BEL Career Mentoring Program
Complement your academic knowledge by connecting with a personal industry mentor – often a BEL alumnus. Mentors are an invaluable source of insight and support as you make the transition from student to graduate. Your mentor can share tips on how to apply your learning to work, help you understand what attributes and behaviours are valued in the workplace, and guide you in using your existing skills to find work experience.

The Edge Student Leadership Series
Hear from inspirational leaders including CEOs, managing directors, partners, general managers and entrepreneurs across a range of industries. Our guest speakers share their personal and career journeys, giving you invaluable first-hand insight into how business leaders got to the top of their game and how they overcame any challenges they faced.

Management Consultancy Bootcamp
If you want to be challenged and make an impact, a career in management consultancy could be for you. A select group of BEL students will attend the bootcamp’s four events and have exclusive early access to a group of leading management consultancy companies and mentors. It will help shape your thinking about your future career and provide you with time to ensure you are fully prepared for the application process.

Room 107, Level 1, Colin Clark (Building 39), St Lucia campus
Like ‘UQ BEL Student Employability Team’ on Facebook
Connect with a personal industry mentor via the BEL Career Mentoring Program

Post-degree:
SET for life

You have been studying alongside your future colleagues, so it is worthwhile staying connected with them through UQ’s alumni community via the popular Alumni Lecture Series and other engaging events.

To support your transition to work, for six months after graduation, you can continue to access individual consultations with your BEL SET contact and attend BEL SET workshops and events.

After some time in the workforce, you can continue to develop your employability skills by participating in SET workshops as a guest speaker or mentor.

UQ Employability Award:

The UQ Employability Award program encourages undergraduate and postgraduate coursework students to further develop their skills beyond the classroom and to produce well-rounded, highly sought-after graduates.

BEL SET has incorporated a number of their programs into the requirements, and all program attendance will count towards completion of the Award.

You can enrol in the program at any time during your undergraduate (including honours) or postgraduate coursework degree.

"The BEL Student Employability Team has encouraged me to engage in multiple extracurricular activities and employment opportunities, which not only increases my employability but makes me more prepared to enter the workforce."

Rebecca Nucifora
Bachelor of Business Management / Bachelor of Commerce
See the world

See the potential of the world. Gain the knowledge to make it better.

How to study overseas
Studying overseas is an ideal way to enhance your employability while also enjoying the experience of a lifetime. As a UQ student, you can access a range of global opportunities, from exchange and short-term experiences to international internships, volunteering and opportunities to represent UQ on the global stage. Our UQ Abroad team can help guide you through the application process and get you set for international success.

Student exchange program
Study overseas in your choice of 38 countries for up to one year while still gaining credit towards your UQ degree. While you’re on exchange, tuition fees at the host university are waived and you’ll continue to pay fees and be enrolled at UQ. You can even apply for exchange scholarships and may be eligible for funding through the Business, Economics and Law Faculty, travel grants or an OS-HELP loan* to assist with airfares, accommodation, health insurance and living costs.

Short-term experiences
Want to study, work or live overseas for only a short time? Short-term global experiences are a great way to discover more of the world, develop valuable contacts and make the most of your semester breaks. Many experiences at approved host universities in Asia, Europe, the USA or Latin America are eligible for credit towards your UQ program.

* OS-HELP loans available to domestic students only.
"My exchange to the Copenhagen Business School (CBS) was incredibly rewarding and truly unforgettable. I was able to complete three human resources courses at CBS, as well as an elective in Danish. My exchange allowed me to develop my ability to interact with people from all sorts of countries, backgrounds and cultures. The absolute highlight was making wonderful friends from all over the world and sharing the experience with them."

Lucy Marchant
Bachelor of Business Management / Bachelor of Arts

Universitas 21 student experiences
UQ is a member of Universitas 21 (U21), an international network of leading research-intensive universities that work together to enhance the student experience across the world. Apply to participate in a range of U21 student experiences such as short-term Summer / Winter Schools, global competitions and student exchange, and build your global network of like-minded peers.
employability.uq.edu.au/u21

Start planning now!
If you’re interested in studying overseas, UQ Abroad offers information sessions throughout the year, or you can get in touch with the exchange adviser for business, economics and law students at exchange@bel.uq.edu.au.
employability.uq.edu.au/global experiences
Apply for a scholarship

Make your UQ experience more affordable with the support of a scholarship. You may not think you’re eligible for a scholarship, but you might be surprised!

"Receiving a scholarship definitely blew my mind. The benefit wasn’t only getting a discount in tuition fees. UQ held events where we could get to know other scholarship recipients, make new friends and build a network."

Deepak Torres
Bachelor of Commerce

UQ’s generous industry partners and private donors contribute to bring you a range of scholarships with varied criteria.

200+ to choose from
Academic

UQ’s Academic Scholarship program is designed to reward the achievements of outstanding school leavers and to identify, support and develop tomorrow’s leaders. If you are a high-achieving student and are completing Year 12 in 2019, or you completed Year 12 in 2018 and are on a gap year, apply for UQ’s Academic Scholarship Program.

Up to 150 scholarships, ranging in value from $6000 to $60,000, are offered each year to students with outstanding academic achievements, or a combination of academic achievements, leadership and/or community service achievements.

scholarships.uq.edu.au

Equity

UQ supports equitable access to education. We offer many scholarships for students who might not otherwise be able to attend university.

UQ Link Scholarships
Awarded to applicants who have experienced educational disadvantage due to financial hardship.
Award value: up to $9000 over three years. The Aspire Scholarship Schemes provide additional support for UQ Link recipients.

Indigenous Commonwealth Scholarships
Financial support is available to Indigenous students to help with the costs of going to university.
scholarships.uq.edu.au

Centrelink Student Income Support
Financial assistance is available to students who receive student income support payments through Centrelink (Youth Allowance, ABSTUDY, Austudy).
Award value: variable and determined by Centrelink.

Other scholarships
UQ has a number of other scholarships for both undergraduate and postgraduate students that provide fee relief or financial assistance, which you can apply for even after you have started at UQ.
Keep an eye out for upcoming scholarships related to your study area. There are also scholarships to help with studying abroad, assistance for regional and rural students, LGBTIQ bursaries, and career-specific scholarships.
scholarships.uq.edu.au

Business, economics and law scholarships

International
For international students wanting to study business, economics or law at UQ, a range of scholarships is offered, including the prestigious Global Leaders Scholarship Program.

TC Beirne School of Law Scholarship
For outstanding international students seeking admission into either the undergraduate Bachelor of Laws (Honours) (LLB (Hons)) or a dual degree program that includes the LLB (Hons).
Award value: two scholarships are on offer. One covers 50% of tuition fees, and one covers 25% of tuition fees.

Business Scholarship for Chinese Students
This scholarship is to encourage and support a Chinese student in their business studies.
Award value: $1000 per year.

Thomas A. Plein Foundation Scholarship
For US citizens who are enrolled in an undergraduate or postgraduate business, economics or law program.
Award value: minimum $3000 per year.

Domestic

Domestic Leadership, Excellence and Diversity (LEAD) Scholarship
For students wishing to study law and who have experienced difficult circumstances during their schooling.
Award value: $8000 per year for up to five years.

TC Beirne School of Law Scholarship
Awarded to full-time students who are experiencing financial hardship.
Award value: up to $5000.

McCullough Robertson Endowed Scholarship
Awarded to full-time law students who are experiencing social, physical or economic challenges.
Award value: minimum $3000.

Blue Sky Alternative Investments Business Scholarship for Indigenous Students
Awarded to Indigenous students who have financial needs and are studying business.
Award value: 100% of tuition fees.

Don Argent Endowed Indigenous Business Scholarship
For Indigenous students who are experiencing financial hardship and are studying business.
Award value: minimum $10,000 per year.

J.M. Donnelly Scholarship
For female students with Samoan heritage studying business.

Diversity (LEAD) Scholarship
Awarded to full-time students who are experiencing financial hardship.

Domestic Leadership, Excellence and Diversity (LEAD) Scholarship
For students wishing to study law and who have experienced difficult circumstances during their schooling.
Award value: $8000 per year for up to five years.

TC Beirne School of Law Scholarship
Awarded to full-time students who are experiencing financial hardship.
Award value: up to $5000.

McCullough Robertson Endowed Scholarship
Awarded to full-time law students who are experiencing social, physical or economic challenges.
Award value: minimum $3000.

Blue Sky Alternative Investments Business Scholarship for Indigenous Students
Awarded to Indigenous students who have financial needs and are studying business.
Award value: 100% of tuition fees.

Don Argent Endowed Indigenous Business Scholarship
For Indigenous students who are experiencing financial hardship and are studying business.
Award value: minimum $10,000 per year.

J.M. Donnelly Scholarship
For female students with Samoan heritage studying business.

For Indigenous students who are experiencing financial hardship and are studying business.
Award value: minimum $10,000 per year.

J.M. Donnelly Scholarship
For female students with Samoan heritage studying business.

Other scholarships
UQ has a number of other scholarships for both undergraduate and postgraduate students that provide fee relief or financial assistance, which you can apply for even after you have started at UQ.
Keep an eye out for upcoming scholarships related to your study area. There are also scholarships to help with studying abroad, assistance for regional and rural students, LGBTIQ bursaries, and career-specific scholarships.
scholarships.uq.edu.au

Business, economics and law scholarships

International
For international students wanting to study business, economics or law at UQ, a range of scholarships is offered, including the prestigious Global Leaders Scholarship Program.

TC Beirne School of Law Scholarship
For outstanding international students seeking admission into either the undergraduate Bachelor of Laws (Honours) (LLB (Hons)) or a dual degree program that includes the LLB (Hons).
Award value: two scholarships are on offer. One covers 50% of tuition fees, and one covers 25% of tuition fees.

Business Scholarship for Chinese Students
This scholarship is to encourage and support a Chinese student in their business studies.
Award value: $1000 per year.

Thomas A. Plein Foundation Scholarship
For US citizens who are enrolled in an undergraduate or postgraduate business, economics or law program.
Award value: minimum $3000 per year.

Domestic

Domestic Leadership, Excellence and Diversity (LEAD) Scholarship
For students wishing to study law and who have experienced difficult circumstances during their schooling.
Award value: $8000 per year for up to five years.

TC Beirne School of Law Scholarship
Awarded to full-time students who are experiencing financial hardship.
Award value: up to $5000.

McCullough Robertson Endowed Scholarship
Awarded to full-time law students who are experiencing social, physical or economic challenges.
Award value: minimum $3000.

Blue Sky Alternative Investments Business Scholarship for Indigenous Students
Awarded to Indigenous students who have financial needs and are studying business.
Award value: 100% of tuition fees.

Don Argent Endowed Indigenous Business Scholarship
For Indigenous students who are experiencing financial hardship and are studying business.
Award value: minimum $10,000 per year.

J.M. Donnelly Scholarship
For female students with Samoan heritage studying business.

Other scholarships
UQ has a number of other scholarships for both undergraduate and postgraduate students that provide fee relief or financial assistance, which you can apply for even after you have started at UQ.
Keep an eye out for upcoming scholarships related to your study area. There are also scholarships to help with studying abroad, assistance for regional and rural students, LGBTIQ bursaries, and career-specific scholarships.

It all adds up!

Don’t forget to budget for accommodation, books, study materials and transport. Insider Guides provides a helpful online Cost of Living Calculator to estimate your weekly, monthly and yearly living costs.

insiderguides.com.au/cost-of-living-calculator
Plan your finances

University is a valuable investment in your future. Knowing what it costs will help you manage your money.

Fees and costs

Course fees and student contributions

Most undergraduate places for domestic students at UQ are funded partly by the Australian Government (Commonwealth support) and partly by you (student contribution).

If you’re an Australian or New Zealand citizen, or an Australian permanent resident and have a Commonwealth-supported place, you may also qualify for the Higher Education Loan Program (HELP) to defer payment of your student contribution and Student Services Amenities Fee (SSAF). You will need to apply for a tax file number at ato.gov.au, if you don’t already have one, in order to obtain a HECS-HELP or SA-HELP loan.

International students pay full tuition fees. If you have a Commonwealth-supported place, your student contribution amount depends on the fee band level of the courses you choose (see table at above right).

Fees are charged according to the courses you choose, not the program you’re enrolled in, so it’s not possible to publish a fixed fee for a program. Because most students can choose different electives during their program, costs will vary.

However, indicative annual fees are listed with each program on our Future Students website to help you plan your budget.

Student Services and Amenities Fee

The Student Services and Amenities Fee (SSAF) is a compulsory fee that is used to subsidise, support or fund non-academic services for students, such as support services, advocacy, study skills, career development and employability.

UQ levies the SSAF – which is capped at a maximum of $303 for 2019 – according to whether you’re an internal or external student and studying full time or part time. The fee is indexed annually.

bit.ly/uq_saf

Keeping your costs down

• Investigate the financial support and fee payment options offered by Centrelink.
  humanservices.gov.au

• Explore the scholarships on offer (see pages 46–47).

• Enjoy UQ Union’s free and low-cost entertainment and activities, such as Morning Marmalade and Kampus Kitchen.
  uqu.com.au

• Get concessions and student discounts at participating retailers and institutions with your UQ student card.
Applying to UQ

Follow the steps to apply to UQ and start on the path to your future.

STEP 1
Choose

Choose your program

• Read your options on pages 8–38.
• Visit future-students.uq.edu.au.

TIP: Check that you meet all academic and other entry requirements and meet any specific program deadlines.

A range of study area guides and other UQ publications can help you choose the right program.

future-students.uq.edu.au/publications-and-forms

STEP 2
Apply

Apply to study

Future students
Apply by visiting qtac.edu.au.

Current students at other universities
Apply by visiting uq.edu.au/apply.

TIP: Before applying, check that your current institution will give you transferable credit.

How to apply via QTAC

Apply for admission to UQ undergraduate programs through the Queensland Tertiary Admissions Centre (QTAC). The QTAC website explains how to apply, and the entry requirements you need.

List up to six program preferences, but you will receive only one offer – for your highest preference that you are eligible for. Place programs in order of preference, placing your dream program first and your back-up options next.

Accept your offer

1. Log in by clicking ‘Applications’ and then ‘Application Log In’ at qtac.edu.au.
2. Select ‘Log In’ and enter your details.
3. Select the ‘Accept’ offer option.
4. Accept your offer.
5. Activate your student account.
6. Go to my.uq.edu.au/starting-at-uq and follow the instructions.
7. Get excited about starting at UQ.
Enrol in courses
1. Access your program rules, course list and other helpful information by logging in to my.uq.edu.au/starting-at-uq.
2. Choose your courses at my.uq.edu.au/programs-courses.
3. Enrol online at sinet.uq.edu.au.
4. Plan your timetable and sign on to classes.
5. Pay fees (see page 49).

Prepare for Week 1
- Complete the steps on the Starting at UQ website, or download the UQ Checklist app to get organised. my.uq.edu.au/mobile-apps.
- Attend a Getting Started session.
- Check if you need to attend any program sessions before Orientation Week.
- Pick up your student ID card after you have enrolled.
- Get answers to any remaining questions before classes start by emailing starting@uq.edu.au.

Get ready for the ultimate university experience
- Prep Week – jump-start your university journey.
- Experience a taste of #uqlife during Orientation Week.
- Connect Week – join the social scene, make new friends and link in with your academic circle.
- Culture Week – experience UQ’s diverse cultural and global networks.
- Success Week – learn about the resources available to help you succeed at UQ.
- Instagram (@uniofqld) or Snapchat (uniofqld) your UQ experience to your friends.

Are you an Aboriginal or Torres Strait Islander student?
Our Aboriginal and Torres Strait Islander Studies Unit can help you with:
- understanding your options
- choosing what to study
- applying for scholarships and entry.
atsis.uq.edu.au
Program table explained

**START SEMESTER**
The academic year at UQ is divided into two main semesters. Semester 1 starts at the end of February and Semester 2 starts at the end of July.

**CAMPUS**
One of three UQ teaching sites where the majority of lectures are held.

**UQ CODE**
A unique identifying number assigned by the University to a program. Visit future-students.uq.edu.au/study and type the UQ code into the search box to find out more details about the programs you are interested in.

**QTAC CODE**
A unique code number assigned by QTAC to each individual undergraduate university program. You will need to use this number on your QTAC application.

**MINIMUM SELECTION THRESHOLD 2018**
OP / RANK / IB / ATAR
The minimum selection threshold is the minimum score that was considered for an offer of a place to all applicants.

- **OP** – Overall Position. A statewide order of ranking students from 1 to 25 (with 1 being the highest) based on achievement in QCAA subjects studied for the Queensland Certificate of Education.
- **Rank** – (also selection rank) Selection rank ranging from 1 to 99 (with 99 being the highest) allocated to university applicants who are not current Year 12 students in Queensland (OP eligible). Rank is usually determined by academic results in the highest level of study completed.
- **IB** – International Baccalaureate points
- **ATAR** – The Australian Tertiary Admission Rank (ATAR) is the standard measure of overall school achievement used in all Australian states and territories (with the exception of Queensland). It is a rank indicating a student’s position overall relative to other students. The ATAR is expressed on a 2000-point scale from 99.95 (highest) down to 0, in increments of 0.05. For 2021 admission, the ATAR will replace the Overall Position (OP) as the standard pathway to tertiary study for Queensland Year 12s.

**ADJUSTMENT FACTORS**
Previously referred to as ‘bonus points’, these are a numerical value added to or used in combination with an OP or selection rank. Common adjustment factors may include subject adjustments, enrichment studies, or educational disadvantage.

- **Adjusted** – The lowest OP or selection rank to which an offer was made to recent school leavers including any adjustment factors that may have been applied.
- **Unadjusted** – The lowest ‘raw’ OP or selection rank to which an offer was made to recent school leavers, excluding any adjustment factors.

**DURATION**
The time it takes to complete a program when it is studied full-time.

- **Full time** – The standard study load is eight units per semester. Full-time study is 75 per cent or more of the standard study load (i.e. six units per semester for most programs).
- **Part time** – Part-time study load is less than 75 per cent of the standard study load (i.e. less than six units per semester for most programs).

**DUAL PROGRAM**
Two UQ degree programs undertaken at the same time (sometimes known as dual / parallel / combined / double degree). This box lists dual programs you can choose to study with a program.

**ADMISSION REQUIREMENTS**
Some programs require you to have completed specific subjects (or their equivalent) at school. Some also have additional requirements.
