What is an Articulation Offer? Do I have one?

• Your offer letter will state that you have entered a Graduate Certificate first and need to meet conditions before entering the Masters.

• You will also see the GCert rather than the Masters in mySI-net.

• If you meet your articulation conditions, you will be automatically program-changed to the Masters in your offer letter.

• Need more help? Contact us for advice.

What is an Exemption?

If you have completed a course/s in your Undergraduate studies that you think is the same as a course in your postgraduate program you may be eligible for an exemption from compulsory course/s.

Receiving an exemption does not reduce the number of courses that you need to complete to graduate. You need to replace any exempted compulsory courses with an elective from Part B of your program’s course list.

What is Credit?

If you have completed equivalent courses at a Postgraduate Level, you may be entitled to credit.

Receiving credit reduces the number of courses you need to complete to graduate. You don’t need to replace courses for which you are awarded credit.
What is a Prerequisite?

Course(s) that **must have been previously passed** to be able to enrol in a particular course. They provide the appropriate foundation knowledge to progress to the next course.

Check the course profile for required prerequisites: [my.uq.edu.au/programs-courses/](http://my.uq.edu.au/programs-courses/)
