Dual Degrees and Program Changes

• The University has an extensive range of dual degrees
• If you would like to study a dual degree you may be able to program change now, depending on your entry rank/OP

Alternatively, consider completing your single degree then progress to a Masters program!
• Employers hold a postgraduate qualification in high regard
• Most of our postgraduate programs can be studied with a bachelor degree in any field

www.uq.edu.au/study
• We recommend you complete the equivalent of at least one full year (16 units at UQ) of bachelor degree study with suitable results to improve your entry rank. The better your results, the greater chance you have of admission to your preferred program.

• Once you have attempted a full year of tertiary study, you can then re-apply for your preferred degree of choice. Keep in mind once you have attempted a full-time year of study we will no longer use your Year 12 results for entry.

• Upgrading can be a complex process. For further information, contact UQ Admissions.

Take the *R U Ready?* Survey

'R U Ready?' Survey

New students to UQ are invited to participate in the ‘R U Ready?’ survey to help identify how the university can assist you and how prepared you are for your first year.

The personalised report will take a few days to generate, as an adviser checks it to ensure that it is accurate to your responses.

It will be emailed to your preferred email address within 1-2 working days.

If you have any questions about the survey, please contact Student Services.
