BEL CAREER MENTORING PROGRAM

Share your leadership and coaching skills and play a key role in developing a young person’s career

It is likely you have received guidance from a more senior colleague at some stage in your career. Sharing your experience can go a long way in helping students navigate the transition from study to work.

You too can gain benefits from participating in the Career Mentoring Program which will allow you to sharpen your own management, coaching and leadership skills.

The program runs throughout the year (March - June or August - October) and complements students’ academic knowledge by offering a real industry perspective and practical advice to prepare them for their career.

This invaluable guidance enhances all aspects of a student’s employability, including:
• their transition to work
• applying academic knowledge in the workplace
• goal setting
• career options.

If you’re at a point in your career where your experience could help a young person starting out, express your interest today!
